

D.0 Pharmacy Claims Processing Manual

**For the Michigan Department of Health and
Human Services (MDHHS)**

Medicaid

Children's Special Health Care Services (CSHCS)

Healthy Michigan Plan (HMP)

Maternity Outpatient Medical Services (MOMS)

Version 1.62

May 29, 2025

Revision History

Version	Date	Name	Comments
1.0	06/26/2006	Plan Administration	First updated version since 5.1 version effective August 14, 2003
1.1	08/08/2006	Plan Administration	Maintenance Drug List was updated, and the Payer Specifications was changed to reflect that MIC will be implemented at an undetermined future date
1.2	08/08/2006	Documentation Mgmt.	Reviewed, formatted, proofread
1.3	04/18/2007	Plan Administration; Documentation Mgmt.	Updated with new Payer Specification content that was updated with NPI information
1.4	05/11/2007	Plan Administration; Documentation Mgmt.	Updated sections 4.4 and 7.8
1.5	06/18/2007	Plan Administration; Documentation Mgmt.	Updated page 16, 75 (M/I Prescriber ID), and 78 (Non-Matched Prescriber ID)
1.6	07/09/2007	Plan Administration; Documentation Mgmt.	Updated footers with version number and date
1.7	08/01/2007	Plan Administration; Documentation Mgmt.	Added section 7.4.1; adjusted numbering to accommodate new section
1.8	12/03/2007	Plan Administration; Documentation Mgmt.	Updated section 7.5, Prior Auth (table 8); added “Narcotics – Early Refills”
1.9	12/21/2007	Plan Administration; Documentation Mgmt.	Updated section 7.8.1

Version	Date	Name	Comments
1.10	02/06/2008	Plan Administration; Documentation Mgmt.	Updated section 8.1.3; updated formatting
1.11	03/14/2008	Plan Administration; Documentation Mgmt.	Updated footers with version number and date; updated sections 4.4 and 7.8; deleted section 7.8.1
1.12	03/28/2008	Plan Administration; Documentation Mgmt.	Updated Page 44 – Field Requirement Table updated for 419-DJ. Section 7.10 updated to reflect April 1, 2008 changes for Unit Dose Incentive Fees
1.13	03/31/2008	Plan Administration; Documentation Mgmt.	Updated section 7.1 – Timely Filing Limits
1.14	04/23/2008	Plan Administration; Documentation Mgmt.	Updated Appendix A
1.15	05/13/2008	Plan Administration; Documentation Mgmt.	Updated Field #466-EZ, 411-DB, and Appendix B
1.16	05/19/2008	Plan Administration; Documentation Mgmt.	Updated Section 2.1
1.17	07/08/2008	Plan Administration; Documentation Mgmt.	Updated Appendix A, Appendix B, and added Section 7.12
1.18	10/27/2008	Plan Administration; Documentation Mgmt.	Updated Section 2.1
1.19	11/05/2008	Plan Administration;	Updated Section 2.2 and last note under Section 7.8

Version	Date	Name	Comments
		Documentation Mgmt.	
1.20	11/06/2008	Documentation Mgmt.	Updated footers
1.21	01/06/2009	Plan Administration; Documentation Mgmt.	Updated NCPDP website address and standardized
1.22	04/08/2009	Plan Administration; Documentation Mgmt.	Updated Appendix G
1.23	11/11/2009	Account/Contract Mgmt/ Documentation Mgmt.	Updated Sections 1.1, 1.2, 2.3, 3.3, 4.2.2, 7.1, 7.8, 8.11, Appendix A, Appendix D, and Appendix F Added Section 7.13
1.24	02/16/2010	Documentation Mgmt.	Updated Magellan Medicaid Administration address
1.25	06/02/2010	Sherrill Bryant; Documentation Mgmt.	Standardized
1.26	12/09/2010	Plan Administration	Updated sections 2.3, 4.4, 7.1, 7.4, 7.4.1, 7.6.3, 7.7.2, 7.13.2, 8.1.3, 8.2.2, and Appendix A
1.27	02/09/2011	Linwood Schools; Documentation Mgmt.	Updated 7.4.1
1.28	08/22/2011	Sherrill Bryant; Documentation Mgmt.	Updated for D.0
1.29	10/20/2011	Sherrill Bryant; Documentation Mgmt.	Updated Appendix A
1.30	11/16/2011	Sherrill Bryant; Documentation Mgmt.	Updated Appendix A

Version	Date	Name	Comments
1.31	09/21/2012	Bradley Vaught; Documentation Mgmt.	Updated Magellan Addresses, Appendix D, and 7.13.2
1.32	12/04/2012	Bradley Vaught; Documentation Mgmt.	Updated Section 8.2.3
1.33	03/25/2013	Bradley Vaught	Updated Directory. Updated section 8.2.3
1.34	06/03/2013	Bradley Vaught	Updated any reference to maintenance days' supply from 100 to 102
1.35	03/24/2015	Bradley Vaught	Added payer specs to Appendix A
1.36	06/10/2015	Paul Lunsford; Documentation Mgmt.	Updated Michigan Department of Health and Human Services name (from Michigan Department of Community Health); rebranded doc with new MRx logo and template
1.37	02/01/2016	Paul Lunsford; Documentation Mgmt.	Updated Payer Spec Appendix A
1.38	12/08/2017	Andrea Mullins	Updated Sections 7.13.1, 7.13.2, Appendix F (Table 12-NCPDP Reject Code 32)
1.39	05/19/2018	Jeanne Bailey; Documentation Mgmt.	Updated Cover Sheet Updated Sections 1,1 MDHHS Pharmacy Programs Updated Section 1.2 Pharmacy Benefit Manager – Magellan Medicaid Administration Updated Section 2.1 Enrolling as an MDHHS-Approved Pharmacy Removed Section 2.2 Undelivered Mail Renumbered Sections Updated Section 4.2.2 Required Data Elements Updated Section 4.4 Paper Claim – Universal Claim Form (UCF) Updated Section 7.5 Prior Authorization Table 8 Updated Section 7.6.2 Lock-In Beneficiaries Created Section 7.6.4 Emergency Services Only (ESO) Eligibility Updated Section 7.7 Managed Care Plans and Pharmacy Carve-Out Lists

1.0 Introduction

1.1 MDHHS Pharmacy Programs

This manual provides claims submission guidelines for the following fee-for-service (FFS) pharmacy programs administered by the Michigan Department of Health and Human Services (MDHHS).

- Medicaid
- Children's Special Health Care Services (CSHCS)
- Healthy Michigan Plan (HMP)
- Maternity Outpatient Medical Services (MOMS)

Billing guidelines specified throughout this manual pertain to all programs, as do any references to Medicaid/MDHHS, unless specifically stated otherwise. Important MDHHS coverage and reimbursement policies are available in the Michigan Medicaid Provider

Manual and the Michigan Pharmaceutical Product List (MPPL). The Prime Therapeutics Management (Prime) website for MDHHS contains a link to these documents. Pharmacy Benefit Manager – Prime Therapeutics

The MDHHS contracts with Prime Therapeutics Management State Government Solutions (Prime) as its pharmacy benefit manager to:

- Adjudicate claims
- Distribute payment and remittance advices (RAs)
- Review prior authorization (PA) requests
- Perform prospective drug utilization review (ProDUR) and retrospective drug utilization review (RetroDUR)
- Conduct post-payment audits
- Provide clinical consultation
- Process batch files for claim reimbursement to health plans

2.0 Billing Overview and Background

2.1 Enrolling as an MDHHS-Approved Pharmacy

To enroll as a Medicaid pharmacy provider, the pharmacy must enroll via the Community Health Automated Medicaid Processing System (CHAMPS). Enrollment information can be found at http://www.michigan.gov/mdhhs/0,5885,7-339-71551_2945_42542_42543_42546_85441---.00.html or by calling 800-292-2550.

It is very important that a pharmacy provider update its information with the National Council on Prescription Drug Programs (NCPDP). NCPDP is the clearinghouse that provides pharmacy contact information to Prime and ultimately to MDHHS. Current information is also required to comply with the Centers for Medicare & Medicaid Services (CMS) regulations and provide improved communication with MDHHS and Prime. Pharmacy providers can update their information with NCPDP online at <https://online.ncdp.org/>

Pharmacy providers may be terminated from the Michigan Medicaid network when address ownership changes, and any essential updates are not reported within the CMS required 35 days.

2.2 Prime Website for MDHHS

Announcements, provider forms, drug information, provider manuals, bulletins, and drug look-up specifying covered drugs are posted on the Prime website at <https://mi.primetheapeutics.com/>. The following information can also be found:

- Michigan Medicaid Provider Manual link provides coverage, limitations, and reimbursement information.
- ePrescribing
- CoverMyMeds
- Drug Lookup

2.3 Important Contact Information

Refer to [Appendix G – Directory](#) at the end of this manual for important phone numbers, mailing addresses, and websites.

3.0 Prime Therapeutics Support Centers

Prime Therapeutics has both a Pharmacy and Clinical Support Center to assist pharmacists and prescribers, as well as a Beneficiary Help Line that provides assistance to beneficiaries.

[Appendix G – Directory](#) at the end of this manual, lists their phone numbers along with the hours of operation.

3.1 Pharmacy Support Center

877-624-5204 (Nationwide Toll-Free Number)

Prime provides a toll-free number for pharmacies available 7 days a week, 24 hours a day, and 365 days a year. The Pharmacy Support Center responds to questions on coverage, claims processing, and beneficiary eligibility.

Examples of issues addressed by Pharmacy Support Center staff include, but are not limited to the following:

- Early Refills – Pharmacies may contact the Pharmacy Support Center for approval of early refills of a prescription.
- Questions on Claims Processing Messages – If a pharmacy needs assistance with alert or denial messages, it is important to contact the Pharmacy Support Center at the time of dispensing drugs. Prime staff can provide claim information on all error messages, including messaging from the ProDUR system. Information includes the national drug codes (NDCs), drug names, the dates of service (DOS), the days' supply, and the NCPDP number of pharmacies receiving the ProDUR message(s).
- Clinical Issues – The Pharmacy Support Center is not intended to be used as a clinical consulting service and cannot replace or supplement the professional judgment of the dispensing pharmacist. However, a second level of assistance is available if a pharmacist's question requires a clinical response. To address these situations, Prime pharmacists are available for consultation. Prime uses reasonable care to accurately compile its ProDUR information. Since each clinical situation is unique, this information is intended for pharmacists to use at their own discretion in the drug therapy management of their patients.

3.2 Clinical Support Center

877-864-9014 (Nationwide Toll-Free Number)

Prime provides a toll-free Clinical Support Center, available business days: Monday through Friday from 7:00 a.m. to 7:00 p.m. (with backup by the Pharmacy Support Center for other hours).

When prior authorization requests are denied, Clinical Support Center staff will mail notices of “adverse action” to the affected beneficiaries.

Examples of issues addressed by Clinical Support Center staff include, but are not limited to, the following:

- Prescribers – The Clinical Support Center handles prior authorization requests for non-preferred drugs, quantity limit overrides, and other situations. A pharmacy technician initially responds to callers. Requests not meeting established criteria or requiring an in-depth review are forwarded to a Prime Therapeutics pharmacist.
- Pharmacies – The Clinical Support Center reviews requests for coinsurance payments on drugs normally covered by Medicare Part B and drug quantity limitations.

Note: The MDHHS approved manufacturer list is the same as the federal list found at <https://data.medicaid.gov/Uncategorized/Drug-Manufacturer-Contacts/uex2-n56q/data>.

The MDHHS Pharmaceutical Product List (MPPL), specifying covered drugs, is available at <https://mi.primetherapeutics.com/>.

3.3 Beneficiary Help Line

877-681-7540 (Nationwide Toll-Free Number)

Beneficiaries with questions about their MDHHS pharmacy coverage may contact the Prime Beneficiary Help Line. This line is available 7 days a week, 24 hours a day, 365 days a year. When questions are received about MDHHS eligibility, Prime will refer beneficiaries to the MDHHS Beneficiary Help Line.

Note: The MDHHS Beneficiary Help Line is available at 800-642-3195. For individuals dually enrolled in Medicaid and Medicare (the duals), beneficiaries should be directed to 800-Medicare or to the help desk of their enrolled Medicare Part D prescription drug plan.

4.0 Program Setup

4.1 Claim Format

While Prime strongly recommends claims submission by point-of-sale (POS), batch submission, and paper claims may be required for certain billings outside the norm. The following three Health Insurance Portability and Accountability Act (HIPAA) formats are accepted. Each is explained in subsequent sections.

Table 1 – Claim Formats Accepted by Prime Therapeutics Management

Billing Media	NCPDP Version	Comments
POS	Version D.0	Online POS is preferred.
Batch	Batch 1.2	FTP is the preferred batch media.
Paper Claim	Universal Claim Form (D.0 UCF)	

4.2 Point-of-Sale – NCPDP Version D.0

Prime uses an online POS system that allows enrolled pharmacies real-time online access to:

- Beneficiary eligibility
- Drug coverage
- Pricing
- Payment information
- ProDUR

The POS system is used in conjunction with a pharmacy's in-house operating system. While there are a variety of different pharmacy operating systems, the information contained in this manual specifies only the response messages related to the interactions with the Prime online system and not the technical operation of a pharmacy's in-house-specific system. Pharmacies should check with their software vendors to ensure their system is able to process the payer specifications listed in [Appendix A – Payer Specifications for NCPDP D.0](#) of this manual.

4.2.1 Supported POS Transaction Types

Prime has implemented the following NCPDP Version D.0 transaction types. A pharmacy's ability to use these transaction types will depend on its software. At a minimum, pharmacies should have the capability to submit original claims (B1), reversals (B2), and re-bills (B3). Other transactions listed on Table 2 – NCPDP Version D.0 Transaction Types Used for MDHHS Pharmacy Programs (although not currently used) may be available at a future date.

- Full Claims Adjudication (Code B1) – This transaction captures and processes the claim and returns the dollar amount allowed under the program's reimbursement formula. The B1 transaction will be the prevalent transaction used by pharmacies.
- Claims Reversal (Code B2) – This transaction is used by a pharmacy to cancel a claim that was previously processed. To submit a reversal, a pharmacy must void a claim that has received a PAID status and select the REVERSAL (Void) option in its computer system.
- Claims Re-Bill (Code B3) – This transaction is used by the pharmacy to adjust and resubmit a claim that has received a PAID status. A "claim re-bill" voids the original claim and resubmits the claim within a single transaction. The B3 claim is identical in format to the B1 claim with the only difference being that the transaction code (Field # 103) is equal to B3.

Note: The following fields must match the original paid claim for a successful transmission of a B2 (Reversal) or B3 (Re-Bill):

Service Provider ID – NCPDP Provider Number

- Prescription Number
- Date of Service (Date Filled)

Table 2 – NCPDP Version D.0 Transaction Types Used for MDHHS Pharmacy Programs

NCPDP D.0 Transaction Code	Transaction Name	MDHHS Transaction Support Requirements
E1	Eligibility Verification	Supported but not required
B1	Billing	Required
B2	Reversal	Required
B3	Re-Bill	Required
P1	Prior Authorization Request and Billing	May be required at a future date
P3	Prior Authorization Inquiry	May be required at a future date
P2	Prior Authorization Reversal	May be required at a future date
P4	Prior Authorization Request Only	May be required at a future date
N1	Information Reporting	May be required at a future date

NCPDP D.0 Transaction Code	Transaction Name	MDHHS Transaction Support Requirements
N2	Information Reporting Reversal	May be required at a future date
N3	Information Reporting Re-Bill	May be required at a future date
C1	Controlled Substance Reporting	May be required at a future date
C2	Controlled Substance Reversal	May be required at a future date
C3	Controlled Substance Reporting Re-Bill	May be required at a future date

4.2.2 Required Data Elements

A software vendor will need the Prime payer specifications to set up a pharmacy's computer system to allow access to the required fields and to process claims. The Prime claims processing system has program specific field requirements, e.g., mandatory, situational, and not sent. Table 3 – Definitions of Field Requirements Indicators Used in Payer Specifications lists abbreviations and that are used throughout the payer specifications to depict field requirements.

Table 3 – Definitions of Field Requirement Indicators Used in Payer Specifications

Code	Description
M	MANDATORY Fields with this designation according to NCPDP standards must be sent if the segment is required for the transaction.
R	REQUIRED Fields with this designation according to this program's specifications must be sent if the segment is required for the transaction.
RW	REQUIRED WHEN The situations designated have qualifications for usage ("Required if x," "Not required if y").
R***	REPEATING The "R***" indicates that the field is repeating. One of the other designators, "M" or "RW" will precede it.

MDHHS claims will not be processed without all the required (or mandatory) data elements. Required (or mandatory) fields may or may not be used in the adjudication process. Also, fields not required at this time may be required at a future date.

- Required Segments – The three transaction types implemented by Prime have NCPDP-defined request formats or segments. Table 4 – Segments Supported for B1, B2, and B3 Transaction Types lists NCPDP segments used.

Table 4 – Segments Supported for B1, B2, and B3 Transaction Types

Segment	Transaction Type Codes		
	B1	B2	B3
Header	M	M	M
Patient	M	M	M
Insurance	M	RW	M
Claim	M	M	M
Prescriber	M	RW	M
COB/Other Payments	RW	RW	RW
DUR/PPS	RW	RW	RW
Pricing	M	M	M
Compound	RW	RW	RW
Clinical	RW	RW	RW
Trailer	M	M	M
M = Mandatory R = Required RW = Required when			

- Payer Specifications – A list of transaction types and their field requirements is available in the [Appendix A – Payer Specifications for NCPDP D.0](#). These specifications list B1, B2, and B3 transaction types with their segments, fields, field requirement indicators (mandatory, situational, optional), and values supported by Prime.
- MDHHS Program Setup – Table 5 – Important Required Values for MDHHS Program Setup lists required values unique to MDHHS programs.

Table 5 – Important Required Values for MDHHS Program Setup

Fields	Description	Comments
ANSI BIN #	009737	
Processor Control #	P008009737	
Group #	MIMEDICAID	
Provider ID #	NPI	Ten digits, all numeric
Cardholder ID #	Michigan Beneficiary ID Number	Ten-digit Medicaid Health Insurance Number (may or may not have two zeros in front of the eight-digit Beneficiary ID)
Prescriber ID #	NPI number	Ten characters, all numeric Effective June 21, 2007: The dummy prescriber ID will no longer be allowed for claims submission. Please use a valid prescriber ID. If a physician's National Provider Identifier (NPI) is not available, you may not use your pharmacy NPI as an alternate.
Product Code	National Drug Code (NDC)	Eleven digits

4.3 NCPDP Batch Format 1.2

Pharmacies using batch processing primarily use file transfer protocol (FTP) transmissions. For record specifications and transmission requirements, pharmacies should contact the Prime Therapeutics Electronic Media Claims Coordinator for FTP and the Pharmacy Support Center for other media types. Refer to [Appendix G – Directory](#) at the end of this manual for contact information and for mailing addresses for batch media.

4.4 Paper Claim – Universal Claim Form (UCF)

All paper pharmacy claims must be submitted to Prime on a Universal Claim Form (UCF), which may be obtained from a pharmacy's wholesaler. The [Appendix G – Directory](#) at the end of this manual specifies:

- An alternative source for obtaining UCFs
- The Prime Therapeutics address that pharmacies must use when sending completed UCF billings.

Completion instructions for the UCF are listed in [Appendix B – Universal Claim Form, Version D.0](#). For certain billings outside the norm, Prime may require or accept UCF submissions.

Examples of claims that a UCF may be submitted for include, but are not limited to the following:

- Prescriptions Exceeding the Timely Filing Limit – Paper claims are allowed when the timely filing limit is exceeded. It is the pharmacy's responsibility to obtain an authorization override prior to submitting the paper claims. Paper claims requiring authorization overrides that are submitted without the pharmacy first obtaining the authorization override, will be returned to the pharmacy without being processed.

Note: Claims exceeding the timely filing limit may also be submitted via POS. Authorization will still be required

- Other Exceptions for MOMS – Prime will accept paper claims if a pharmacy is unable to process a claim electronically because a beneficiary's eligibility record has not been updated. For these situations, paper claims received from the pharmacy should document that eligibility verification problems exist or provide documentation, such as the MOMS Guarantee of Payment Letter to show proof of eligibility. If within 30 days from the date the claim was received by Prime, the beneficiary's eligibility has not been loaded in the Prime system, Prime will forward the claim and supporting documentation to MDHHS for review and resolution.

5.0 Service Support

5.1 D.0 Online Certification

The Software Vendor/Certification Number (NCPDP Field # 11Ø-AK) of the Transaction Header Segment is required for claim submission under NCPDP Version D.0. Prime certifies software vendors, not an individual pharmacy's computer system. A pharmacy should contact its vendor or Prime to determine if the required certification has been obtained. For assistance with software vendor certification, contact Prime at 804-217-7900. Refer to [Appendix G – Directory](#) at the end of this manual for other contact information.

5.2 Electronic Funds Transfer (EFT) – Electronic Remittance Advice (ERA)

Providers who would like to sign up for EFT or ERA or download paper or electronic Remittance advices should visit the Finance Portal

The Finance Portal allows users to sign up and maintain claim payment methods (i.e., paper check or electronic funds transfer [EFT] and Electronic Remittance Advice (ERA) preferences under the EFT and ERA tab. Providers will also be able to download historical remittance advice (RA) once posted

The functionality available to a given user depends on the permissions granted by the Delegated Administrator from your organization through User Administration Console (UAC).

To sign up for the Finance Portal use the following link to request PIN and complete registration process: <https://uac.mi.primetherapeutics.com/>

On the bottom of the UAC home page is help link to provide additional assistance.

To obtain copy of the Finance Portal user guide, visit <https://mi.primetherapeutics.com>

5.3 Solving Technical Problems

Pharmacies will receive one of the following messages when the Prime POS system is down:

Table 6 – Host System Problem Messages and Explanations

NCPDP	Message	Explanation
90	Host Hung Up	Host disconnected before session completed.
92	System Unavailable/Host Unavailable	Processing host did not accept transaction or did not respond within time out period.
93	Planned Unavailable	Transmission occurred during scheduled downtime. Scheduled downtime for file maintenance is Sunday 11:00 p.m.–6:00 a.m. ET
99	Host Processing Error	Do not retransmit claims.

Prime strongly encourages that a pharmacy's software has the capability to submit backdated claims. Occasionally, a pharmacy may also receive messages that indicate its own network is having problems communicating with Prime.

If this occurs, or if a pharmacy is experiencing technical difficulties connecting with the Prime system, pharmacies should follow the steps outlined below:

1. Check the terminal and communications equipment to ensure that electrical power and telephone services are operational.
2. Call the telephone number the modem is dialing and note the information heard (i.e., fast busy, steady busy, recorded message).
3. Contact the software vendor if unable to access this information in the system.
4. If the pharmacy has an internal technical staff, forward the problem to that department, then internal technical staff should contact Prime to resolve the problem.
5. If unable to resolve the problem after following the steps outlined above, directly contact the Prime Therapeutics Pharmacy Support Center. Refer to [Appendix G – Directory](#) at the end of this manual for contact information.

6.0 Online Claims Processing Edits

After online claim submission is made by a pharmacy, the POS system will return a message to indicate the outcome of processing. If the claim passes all edits, a PAID message will be returned with the allowed reimbursement amount. A claim that fails an edit and is REJECTED (or DENIED) will also return with a NCPDP rejection code and message. Refer to [Appendix F – POS Reject Codes and Messages](#) for a list of POS rejection codes and messages.

7.0 Program Specifications

7.1 Timely Filing Limits

Most pharmacies that utilize the POS system submit their claims at the time of dispensing drugs. However, there may be mitigating reasons that require a claim to be submitted retroactively.

- CI = 180 days. Prescription good for 90 days from date written
- CII = 365 days. Prescription good for 90 days from date written
- CIII – CIV = 365 days. Prescription good for 180 days from date written or 5 refills, whichever first
- CV = 365 days. Prescription good for 365 days from date written
- Non-Controls = 365 days. Prescription good for 365 days from date written
- Partial fills = 60 days (CII – CV = 365 days)

7.1.1 Overrides

For overrides on claims, reversals, and adjustments billed past the timely filing limits of 180 days or more, pharmacies must contact the Pharmacy Support Center. Refer to [Appendix G – Directory](#) at the end of this manual for contact information. Approved criteria for Prime to override the denials include:

- Retroactive beneficiary eligibility
- Third-party liability (TPL) delay
- Retroactive disenrollment from Medicaid health plan
- Claims recovered through rebate dispute resolution as identified and agreed upon by the rebate manufacturers and the MDHHS staff. Prime Therapeutics may also override claims discovered through rebate dispute resolution as identified and agreed upon by the Prime Therapeutics Rebate and the MDHHS staff.

7.2 Days' Supply and Maintenance Drug List

Days' supply information is critical to the edit functions of the ProDUR system. Submitting incorrect days' supply information may cause false positive ProDUR messages or claim denial for that particular claim or for claims that are submitted in the future.

Information on MDHHS's dispensing policies can be found in the Pharmacy chapter of the Michigan Medicaid Provider Manual. A maximum supply of 102 days is allowed for selected therapeutic classes. Refer to [Appendix C – MDHHS Maintenance Drug List](#) for a listing of these maintenance classes. Please note that certain drugs may have specific quantity limits that supersede this list as identified in the Michigan Pharmaceutical Product List (MPPL). Beneficiary specific prior authorization is required when requesting a maintenance quantity for other drugs.

7.3 Schedule II Refills

According to the Michigan Board of Pharmacy, a pharmacist may partially dispense a controlled substance designated as Schedule II. If a pharmacist is unable to supply the full amount ordered in a written or emergency oral prescription, the pharmacist makes a notation of the quantity supplied on the face of the written prescription or written record of the emergency oral prescription. Except as noted below, the remainder of the prescription may be dispensed within 72 hours of the first partial dispensing. If the remainder is not or cannot be dispensed within the 72-hour period, the pharmacy must notify the prescriber, and additional quantities must not be dispensed beyond the 72-hour period without a new prescription. Prime supports the following procedures for partial dispensing of Schedule II drugs.

7.3.1 Retail Schedule II Prescriptions

The pharmacy must not charge MDHHS an additional dispensing fee for filling the remainder of a partially dispensed Schedule II prescription.

7.3.2 Schedule II Prescriptions for Individuals in Long-Term Care (LTC) Facilities or Beneficiaries with a Terminal Illness

Prescriptions for Schedule II controlled substances that are written (1) for a beneficiary in a long-term care facility or (2) for a beneficiary with a medical diagnosis that documents a terminal illness may be filled in partial quantities, including individual dosage units.

- The pharmacy may not charge MDHHS an additional dispensing fee for filling the remainder of a partially dispensed Schedule II prescription.
- The quantity dispensed in all partial fillings must not exceed the total quantity prescribed.

- For each partial filling, the pharmacy must record on the back of the prescription or on another appropriate record that is uniformly maintained and readily retrievable, all the following information:
 - Date of the partial filling
 - Quantity dispensed
 - Remaining quantity authorized to be dispensed
 - Identification of the dispensing pharmacist
 - Whether the patient was terminally ill or residing in a long-term care facility

Note: According to the Michigan Board of Pharmacy, Schedule II prescriptions for a patient in a long-term care facility or for a patient with a medical diagnosis that documents a terminal illness shall be valid for not more than 60 days from the issue date, unless terminated at an earlier date by the discontinuance of the medication.

7.4 Maximum Allowable Cost (MAC) Rates

MDHHS has MAC reimbursement levels generally applied to multi-source brand and generic products. However, MAC reimbursement may also be applied to single-source drugs or drug classifications. Refer to the *MDHHS Medicaid Provider Manual* for additional information.

The Prime Therapeutics website at <https://mi.primetherapeutics.com/> provides links to new or changed MAC rates. The files on the website are provided as a convenience only to pharmacies to assist them with pre-POS adjudication decision making. The presence of a particular drug on the website MAC lists does not guarantee payment or payment level. The POS system provides up-to-date MAC information.

- Antihemophilic Factors – Click the link to **Provider/Documents/Drug Pricing/Clotting Factor MAC Pricing**.
- Other MACs – Click the link to **Provider/Documents/Drug Pricing, MAC Listing or MAC Listing (Weekly Changes)**.

7.4.1 MAC Pricing or Appeal/Raise Issues

Providers can check MAC prices for all drugs that have a MAC, by going to <https://mi.primetherapeutics.com/>. Select the link to Provider/Documents/Drug Pricing.

Appeal/Raise MAC pricing issues are

- Dispense As Written (DAW) Pricing – To request reimbursement for the brand and if the script is written as “DAW,” please refer to DAW override requirements.
- MAC Price Review Requests – Please refer to <https://mi.primetherapeutics.com/> website as noted above and click, Provider/Documents/ Drug Pricing/MAC Price Research Request Form. This will open a form that the user can fill out and submit directly to Prime for a MAC price review.

7.4.2 MAC Overrides

A beneficiary must not be required to pay a MAC penalty (the difference between the brand name and the generic products). To receive payment above a MAC rate, prior authorization through Prime must be obtained. None of the DAW codes (see *Table 7 – NCPDP DAW Code Values*) alone will override a MAC rate at the point-of-sale.

Table 7 – NCPDP DAW Code Values

DAW Code	Explanation
0	No product selection indicated
1	Substitution not allowed by prescriber
2	Substitution allowed – patient requested product dispensed
3	Substitution allowed – pharmacist selected product dispensed
4	Substitution allowed – generic product not in stock
5	Substitution allowed – brand drug dispensed as a generic
6	Override
7	Substitution not allowed – brand mandated by law
8	Substitution allowed – generic drug unavailable in the marketplace
9	Other

Pharmacies should note the following Prime claims processing logic that applies when a MAC exists, and

- If DAW 1 is submitted and PA is on file for the beneficiary, the claim will reimburse at the brand name rate instead of the MAC.
- If DAW 1 is not submitted and PA is on file for a beneficiary, the claim will pay with logic that includes MAC price. The MAC will not be overridden.
- If DAW 2 is submitted, and the medication has a MAC price, the claim will deny unless PA is on file for the beneficiary. DAW 2 (the patient requested the product) will not substantiate PA for a MAC override.

7.5 Prior Authorization

The PA process is designed to provide rapid and timely responses to requests. PAs are managed by three ways: pharmacy level overrides, the Clinical Support Center, and the Pharmacy Support Center. Support centers are described under [Section 3.0 – Prime Therapeutics’s Support Centers](#) in this manual and contact information is listed in [Appendix G – Directory](#) at the end of this manual. Table 8 – Prior Authorization Procedures lists examples of various prior authorization procedures. The Prime Therapeutics support centers are responsible for reviewing requests. The health care provider is responsible for obtaining prior authorization.

Table 8 – Prior Authorization Procedures

Examples of PA Products or Edit Types	Where to Call	Who Should Call
Drugs Not Listed on the Michigan Pharmaceutical Product List (MPPL) Drugs Listed on the Michigan Pharmaceutical Product List as Requiring PA	Clinical Support Center	Prescribers
MAC Price Overrides MACs are set on multiple source drugs and some therapeutic classes. Payment for product cost will not exceed a drug’s MAC price regardless of the brand dispensed unless PA is granted.	Clinical Support Center	Prescribers
Quantity Limitations	Clinical Support Center	Pharmacies or Prescribers
Cost Sharing Payments for Medicare Part B Covered Drugs	Clinical Support Center	Pharmacies
Rounding Edit Prime codes for certain drugs to only allow whole multiples of the package size	Clinical Support Center	Pharmacies

Examples of PA Products or Edit Types	Where to Call	Who Should Call
<p>Narcotics – Early Refills MDHHS Policy implemented 11/01/07 Increase the refill tolerance to 10 percent (requiring 90 percent of the days' supply to be used) for the H3A – Narcotic Analgesics for all beneficiaries.</p> <ul style="list-style-type: none"> • Include more specific transaction message to the pharmacy on the NCPDP 88 indicating 10 percent refill tolerance – H3A Narcotic Analgesics. • Exclusions from this new edit: <ul style="list-style-type: none"> – Beneficiaries with LOC = 16 (they will continue with the 25 percent refill tolerance) – COB claims with > \$0 reported as paid by Other Insurance (i.e., OCC 2 and Payment Collected > \$0) – LOC = 13 or 14 (they will continue with the 5 percent refill tolerance) 	Pharmacy Support Center	Pharmacies
<p>Early Refills for Ambulatory Beneficiaries Each claim submitted is evaluated to determine if at least 75 percent of the previous fill of the same drug product has been used. Claims will deny at the POS if the utilization requirement has not been met.</p>	Pharmacy Support Center	Pharmacies
<p>Early Refills for LTC Beneficiaries An exception is allowed, when the Early Refill edit is hitting because of an LTC new admission or a readmission.</p>	Pharmacy Level Override	Pharmacies may override PA by entering a Submission Clarification Code = 05. If the beneficiary is not flagged as an active LTC beneficiary, the claim will deny.

7.6 Special Eligibility Situations

7.6.1 Newborns

The newborn's Medicaid ID number must be transmitted on the pharmacy claim. If the newborn's Medicaid ID number is not available, contact the MDHHS Enrollment Services Section. The parent's ID cannot be used in place of the newborn. Refer to the *Directory Appendix* in the Michigan Medicaid Provider Manual.

7.6.2 Lock-In Beneficiaries

For information regarding lock-in beneficiaries, also referred to as Benefit Monitoring Program (BMP), refer to the *Beneficiary Eligibility* chapter in the *Michigan Medicaid Provider Manual*.

7.6.3 Retroactive Eligibility

Pharmacies may bill for prescriptions dispensed to beneficiaries who become retroactively eligible for Medicaid. Pharmacies must contact the Pharmacy Support Center to obtain approval for retroactive prior authorization or timely filing overrides in cases when eligibility was retroactive. Medications that require prior authorization will still require an override.

An authorization will not be granted unless criteria is met even in cases of retro-eligibility.

7.6.4 Emergency Services (ESO) Eligibility

Effective 10/01/2017, claims submitted for beneficiaries covered under any ESO program will deny unless the pharmacy submits a level of service = 03, which by submitting attests that the medication being dispensed is for an emergent conditioned as outlined in the Medicaid Provider Manual, Emergency Services Only Chapter.

7.7 Managed Care Plans and Pharmacy Carve-Out Lists

MDHHS contracts with capitated managed care plans to provide services for its beneficiaries. These plans are responsible for most pharmacy services. Carve-out exceptions are explained in the next sections. Approved Medicaid Health Plan (MHP) pharmaceutical products may differ from Medicaid FFS and CSHCS programs. Refer to the *Pharmacy* chapter, *Medicaid Health Plan (MHP)* section in the *Michigan Medicaid Provider Manual*. Information regarding the MHP common formulary can be found at

https://www.michigan.gov/documents/mdhhs/Managed_Care_Common_Formulary_Listing_506275_7.pdf.

7.7.1 Pharmacy Carve-Outs

Selected drugs and classes are carved out from the managed care plan coverage and are paid directly to a pharmacy by the MDHHS fee-for service program. For these drugs, pharmacies must bill Prime for reimbursement.

The Prime website at <https://mi.primetherapeutics.com/> includes the carve-out lists for Medicaid health plans.

7.7.2 Michigan Medicaid Health Plan Carve-Outs

Pharmacies will not be reimbursed for prescriptions dispensed to beneficiaries enrolled in the Medicaid health plans, except for drugs designated as carve-out.

If a pharmacy bills Prime for drug products not designated as carve-out, the claim will be denied with a transaction message to bill the Medicaid health plan.

7.7.3 Medical Injectable Physician-Administered Carve-Out Drugs

Effective January 1, 2025, injectable drug products covered under the medical benefit and carved-out of Medicaid Health Plan (MHP) coverage will be covered as a Medicaid pharmacy benefit when billed in accordance with bulletin [MSA 18-02](#).

If the practitioner uses a pharmacy to acquire the drug for administration, the pharmacy must submit the claim as a pharmacy claim to Prime. Claims must be submitted with Place of Service code “11”, which indicates “Office”, in the National Council for Prescription Drug Programs (NCPDP) Patient Segment field 307-C7.

Pharmacies and prescribing practitioners must ensure that claims are not duplicated. Claims for these drugs are currently paid through the Medicaid Fee-For-Service (FFS) for beneficiaries who are enrolled in an MHP and FFS.

7.8 Compound Claims

7.8.1 Compound Claim Submission

Refer to the *Pharmacy* chapter of the *Michigan Medicaid Provider Manual* for information and reimbursement rates. To request the compounded dispensing fee from the POS system, pharmacies must:

- Enter COMPOUND CODE (NCPDP Field # 406-D6) of “2.”
- Enter PRODUCT CODE/NDC (NCPDP Field # 407-D7) as “0” on the claim segment to identify the claim as a multi-ingredient compound.

- Enter QUANTITY DISPENSED (NCPDP Field # 442-E7) of entire product.
- Enter GROSS AMOUNT DUE (NCPDP Field # 430-DU) for entire product.
- Enter the following fields on the COMPOUND SEGMENT:
 - COMPOUND DOSAGE FORM DESCRIPTION CODE (NCPDP Field # 450-EF)
 - COMPOUND DISPENSING UNIT FORM INDICATOR (NCPDP Field # 451-EG)
 - COMPOUND INGREDIENT COMPONENT COUNT (NCPDP Field # 447-EC) (Maximum of 99)
 - COMPOUND PRODUCT ID QUALIFIER (NCPDP Field #488-RE) of “3”
 - COMPOUND PRODUCT ID (NCPDP Field # 489-TE)
 - COMPOUND INGREDIENT QUANTITY (NCPDP Field # 448-ED)
 - COMPOUND INGREDIENT COST (NCPDP Field # 449-EE)
- SUBMISSION CLARIFICATION CODE (NCPDP Field # 420-DK) = Value “8” will only be permitted for POS claims and will allow a claim to continue processing if at least one ingredient is covered with reimbursement for the covered product only. Refer to 7.8.2 *Guidance for Prior Authorization and Reimbursement of Ingredients* for more information. Batch claims from the Medicaid health plans will need to be submitted for covered ingredients only or the claim will deny as they cannot submit submission clarification code “8,” they must submit “99” in that field. Any compound claims that contain any NDC within the Compound Exclusion List will deny. Claim will need to be resubmitted with the excluded ingredient removed.
 - **Note:** The order of the NDC does not matter. Providers must submit the following for each compound ingredient specified:
 - Compound Product ID Qualifier
 - Compound Product ID field with the appropriate values – **do not** include null or spaces in this field.
 - Compound Ingredient Cost field with an amount greater than zero.
 - At least two NDCs must be billed in the compound segment for compound submissions. If there are not two NDCs, claims will reject for NCPDP 20 – M/I compound code
 - MDHHS will not accept Compound Route of Administration value “0” as a valid value. Please refer to [Appendix A – Payers Specifications for NCPDP D.0](#) for the new route of administration in the claim segment and the new acceptable values.
 - **Note:** Baclofen and bulk powders are covered in compounds if the NDC is rebateable and included in the weekly First Databank (FDB) drug reference file. National Drug Codes that are not included in the weekly FDB drug reference file are non-covered by MDHHS. Refer to [MI API & Excipient Coverage List](#) for NDCs covered regardless of rebate when submitted in a compound claim.

7.8.2 Guidance for Prior Authorization and Reimbursement of Ingredients

- The list of active pharmaceutical ingredients (APIs) and excipients allow for reimbursement of selected ingredients when submitted in a multi-ingredient compound. Refer to the list located at [API & Excipient Coverage List](#).
- A prior authorization fax form was created for multi-ingredient compound (MIC) claims to facilitate the prior authorization process. This form is available at <https://mi.primetherapeutics.com/provider/forms>
- Please ensure that the pharmacy has submitted the compound claim. If the claim reimburses appropriately and none of the ingredients require a prior authorization, then submission of a PA form is **not** needed.
- If a prior authorization is needed for any of the ingredients or if the claim did not reimburse for a particular ingredient(s), submit the multi-ingredient compound PA fax form. For reimbursement consideration of **all** ingredients, the pharmacy **must not** submit the claim with Submission Clarification Code (SCC) = 8. Submission of SCC = 8 will allow a claim to continue processing if at least one ingredient is covered with reimbursement for the covered product(s) only. Use of this provider level override prevents the call center from being able to accurately process the PA request.
- The NDC, name, dosage form, strength, and quantity of each ingredient used in the compound **must** be listed on the fax form for reimbursement consideration

7.9 Home Infusion Therapy Claims

MDHHS reimburses each home infusion claim with a professional dispensing fee of \$20.02. Coverage of home infusion therapy claims is limited to products that are not oral therapies.

- To ensure home infusion therapy claims are processed successfully, pharmacies must:
 - Enter **8** in the 12-digit prior authorization type code (NCPDP Field # 461-EU) of the claim segment.
 - Please note that there is a maximum of 13 professional dispensing fees paid in a rolling 365-day period for same pharmacy and same drug/home infusion.

Refer to the MDHHS Medicaid Provider Manual for more information:

<http://www.mdch.state.mi.us/dch-medicaid/manuals/MedicaidProviderManual.pdf>

7.10 Unit Dose Claims

Effective April 1, 2008, MDHHS will no longer pay a unit dose incentive fee.

7.11 Medical Supplies and Prefilled Syringes

Effective for dates of service January 1, 2006, and after, MDHHS no longer covers the following medical supply items and prefilled syringes as a pharmacy benefit. These items are covered only as a medical supplier benefit billed using the appropriate procedures on the ANSI X12N 837P, Version 4010A1, or CMS 1500 format not on the NCPDP Version D.0, Batch 1.2, or Universal Claim format.

- Blood glucose test strips
- Lancets
- Urine glucose/acetone test strips
- Nutritional supplements (e.g., protein replacements and infant formulas)
- Heparin lock flush prefilled syringes
- Normal saline prefilled syringes

Pharmacies desiring to become approved MDHHS medical suppliers must refer to the **General Information for Providers** chapter of the **Michigan Medicaid Provider Manual**.

Prime is not responsible for medical supplier enrollment.

7.12 Partial Fills

7.12.1 Initial Fill – Online Process

- Enter actual QUANTITY DISPENSED (NCPDP Field # 442-E7)
- Enter actual DAYS SUPPLY (NCPDP Field # 405-D5)
- Enter DISPENSING STATUS (NCPDP Field # 343-HD) = “P”
- Enter QUANTITY INTENDED TO BE DISPENSED (NCPDP Field # 344-HF) = the total prescribed amount for the prescription
- Enter DAYS SUPPLY INTENDED TO BE DISPENSED (NCPDP Field # 345-HG) = the total days’ supply from the prescription

7.12.2 Subsequent Partial Fill – Online Process

- Enter ASSOCIATED PRESCRIPTION/SERVICE REFERENCE # (NCPDP Field #456-EN) = the prescription number from the initial partial fill
- Enter ASSOCIATED PRESCRIPTION/SERVICE DATE (NCPDP Field # 457-EP) = the date of service of the most recent partial fill in the series
- Enter actual QUANTITY DISPENSED (NCPDP Field # 442-E7)
- Enter actual DAYS SUPPLY (NCPDP Field # 405-D5)
- Enter DISPENSING STATUS (NCPDP Field # 343-HD) = “P”
- Enter QUANTITY INTENDED TO BE DISPENSED (NCPDP Field # 344-HF) = the total prescribed amount for the prescription
- Enter DAYS SUPPLY INTENDED TO BE DISPENSED (NCPDP Field # 345-HG) = the total days’ supply from the prescription

7.12.3 Completion of Partial Fill – Online Process

- Enter ASSOCIATED PRESCRIPTION/SERVICE REFERENCE # (NCPDP Field # 456-EN) = the prescription number from the initial partial fill
- Enter ASSOCIATED PRESCRIPTION/SERVICE DATE (NCPDP Field # 457-EP) = the date of service of the most recent partial fill in the series
- Enter actual QUANTITY DISPENSED (NCPDP Field # 442-E7)
- Enter actual DAYS SUPPLY (NCPDP Field # 405-D5)
- Enter DISPENSING STATUS (NCPDP Field # 343-HD) = “C”
- Enter QUANTITY INTENDED TO BE DISPENSED (NCPDP Field # 344-HF) = the total prescribed amount for the prescription
- Enter DAYS SUPPLY INTENDED TO BE DISPENSED (NCPDP Field # 345-HG) = the total days’ supply from the prescription

Notes:

- Partial fill functionality cannot be used with Multi-Ingredient Compound claims.
- Partial fills may not be transferred from one pharmacy to another.
- Two partial fill transactions may not be submitted on the same day; the Service Date must be different for each of the partial transactions and the completion transaction.
- Completion fill must be submitted within 60 days of original partial fill.
- NCPDP EN-M/I Associated Prescription/Service Ref Number should be blank unless you are submitting for a partial fill, otherwise please remove any values from this field.

7.12.4 Initial Incremental Fill for CII Drugs

- Enter actual QUANTITY DISPENSED (NCPDP Field # 442-E7)
- Enter actual QUANTITY PRESCRIBED (NCPDP Field # 460-ET)
- Enter 0 (zero) in the FILL NUMBER field (NCPDP Field # 403-D3)

7.12.5 Subsequent Incremental Fill for CII Drugs

- Enter same RX number as Incremental Fill
- Enter QUANTITY DISPENSED (NCPDP Field # 442-E7) this should be less than the incoming QUANTITY PRESCRIBED
- Enter actual QUANTITY PRESCRIBED (NCPDP Field # 460-ET)
- Enter 0 (zero) in the FILL NUMBER field (NCPDP Field # 403-D3)

Notes:

- GSN of the incoming Product/Service ID matches the GSN of the Product/Service ID on the historical claim with the same prescription number found in the patient medication history.
- Service Provider ID (NPI) of the incoming claim matches the Service Provider ID (NPI) on the historical claim with the same prescription number found in the patient medication history.
- Historical claim was identified as an Initial Incremental Fill.

7.13 Vaccine Submissions

7.13.1 Seasonal Flu Vaccine

- Michigan Department of Health and Human Services will pay an administrative fee in accordance with the fee schedule found on the MDHHS website:
https://www.michigan.gov/mdhhs/0,5885,7-339-71547_4860_78446_78448_78560---.00.html. All benefit plans are eligible to receive the fee except **any** Emergency Services Only, Managed Care, Spenddown, Incarcerated, and Medicare/Medicaid dual beneficiaries. The following guidelines apply for these claims

- No co-pay will be charged to the patient
- No dispense fee will be paid
- Patients ages 19 and older are eligible to receive the vaccine
- The pharmacy should be instructed to bill the appropriate incentive fee in field (NCPDP Field #438-E3) as determined by the form of the vaccine.
- The pharmacy should be instructed to bill Drug Utilization Review (DUR)/Professional Pharmacy Services (PPS) segment with a value of “1” in the DUR/PPS Code Counter (NCPDP Field # 473-7E) and a value of MA (medication administered) for the Professional Service Code (NCPDP Field # 440-E5)
- Max ingredient cost is per MDHHS covered products for the season.

7.13.2 Other Vaccines

All vaccines recommended by the Advisory Committee on Immunization Practices (ACIP), including seasonal influenza vaccines, administered by pharmacists are covered for adults aged 19 and older. Please refer to the *Medicaid Provider Manual Pharmacy Chapter, Section 14.15* for further information regarding administration and reporting requirements.

7.14 Professional Dispensing Fee

Please note that there is a maximum of 13 dispensing fees paid in a rolling 365-day period for same pharmacy and same drug. Only one dispensing fee will be paid per 25 days for the same pharmacy and same drug for beneficiaries with the hospice benefit plan or long-term care segment.

7.15 Clinical Trial Attestation Policy

Effective: February 1, 2023, for items and services that require a Prior Authorization and were provided in connection with a beneficiary's participation in a qualified clinical trial:

- A completed Attestation to the Appropriateness of the Qualified Clinical Trial form (BPHASA-2210) is required by Section 210 of the Consolidated Appropriations Act of 2021.
- The completed BPHASA-2210 must be submitted with Pharmacy PA Requests.
- To submit a fee-for-service pharmacy PA request for items furnished in connection with a beneficiary's participation in a qualified clinical trial, visit <https://mi.primetherapeutics.com> >> Provider Portal >> Forms >> Prior Authorization Forms.
- For questions related to Fee for Service pharmacy PA requests, contact Prime Therapeutics Pharmacy Technical Call Center at 877-624-5204.
- For information related to Medicaid Health Plan pharmacy prior authorization requests, visit www.michigan.gov/MCOpharmacy.

8.0 Coordination of Benefits (COB)

Coordination of benefits is the mechanism used to designate the order in which multiple carriers are responsible for benefit payments and prevention of duplicate payments.

Third-party liability (TPL) refers to:

- An insurance plan or carrier
- A program
- A commercial carrier; **AND**
- Acceptable Other Coverage Codes

The plan or carrier can be:

- An individual
- A group
- Employer-related
- Self-insured; **AND**
- Self-funded plan.

The program can be Medicare, which has liability for all or part of a beneficiary's medical or pharmacy coverage.

The commercial carrier can be automobile insurance and workers' compensation.

The terms "third-party liability" and "other insurance" are used interchangeably to mean any source other than Medicaid that has a financial obligation for health care coverage. Pharmacies should refer to the *Coordination of Benefits* chapter of the *MDHHS Medicaid Provider Manual* for specific requirements.

MDHHS is always the payer of last resort. For beneficiaries who have other insurance coverage, pharmacies must bill the other insurance carriers (including Medicare) before billing MDHHS. Further, pharmacies must investigate and report the existence of other insurance or liability and utilize the other payment sources to their fullest extent prior to filing a claim with MDHHS.

8.1 COB General Instructions

8.1.1 Identifying Other Insurance Coverage

From MDHHS Sources

Other insurance information is not displayed on the beneficiary's "mihealth" card. Pharmacies are responsible for verifying eligibility and other insurance information by using the Community Health Automated Medicaid Processing System (CHAMPS). Refer to *Directory Appendix* in the *Michigan Medicaid Provider Manual for CHAMPS* contact information.

POS Claims

If a beneficiary has other coverage on a date of service and it is not reported on the pharmacy's claim submission, Prime will deny the claim in the POS system and return the following information in the Additional Message field.

- Carrier ID (Refer to the next section for a description)
- Carrier Name
- Beneficiary Policy Number

Carrier ID List

A Master Carrier ID List providing carrier codes, names, and addresses is available on the MDHHS website. The Prime website at <https://mi.primetherapeutics.com/> provides a quick link to this file. Select the link to Links and then Michigan Department of Health and Human Services. If a beneficiary has other insurance and that carrier is not identified on the MDHHS Carrier ID Listing, pharmacies may enter "99999999" in the Other Payer ID.

Other Insurance Discrepancies on MDHHS Files

Pharmacies should report any changes or newly identified commercial insurance by accessing www.michigan.gov/ReportTPL and submitting the online form. If a pharmacy has an urgent access to care issue, please call 800-292-2550 to report changes to other insurance. Urgent requests are normally resolved within 24 hours.

Beneficiaries may be instructed to notify the MDHHS Beneficiary Help Line available at 800-624-3195.

The MDHHS Third-Party Liability (TPL) staff is required to validate the accuracy of other insurance changes prior to updating the system. Please note that MDHHS TPL staff are only available Monday–Friday, 8:00 a.m. – 5:00 p.m. Changes are transmitted to the MDHHS PBM, Prime, multiple times a day.

8.1.2 Third-Party Liability Processing Grid

Pharmacies must comply with the instructions in the Third-Party Liability (TPL).

Processing Grid for appropriate Other Coverage Code values to report in the Claim Segment. The TPL Processing Grid is available at <https://mi.primetherapeutics.com/>. Select the link to Providers, Other Notices, and then Pharmacy Claims Submission. The following table (Table 9 – Other Coverage Code) summarizes values for the Other Coverage Code.

Table 9 – Other Coverage Code

Code	Descriptions	Comments
1	No Other Coverage	No longer supported. This value will result in payment denial with NCPDP Reject Code 13, Missing/Invalid Other Coverage Code, which cannot be overridden.
2	Other Coverage Exists – Payment Collected	When this value is used, the pharmacy must report the other insurance payment collected and bill MDHHS only for the beneficiary's liability. Payment will not exceed MDHHS allowed amounts.
3	Other Coverage Exists – This Claim Not Covered	This value will pay when a drug is not covered by the beneficiary's other insurance but is covered by MDHHS and a valid Other Payer Reject Code (NCPDP Field # 4726E) is submitted. Claims not meeting this requirement will be denied with NCPDP Reject Code 6E, Missing/Invalid Other Payer Code.
4	Other Coverage Exists – Payment Not Collected	This value must be used only when a beneficiary has not met the other insurer's deductible or the drug cost is less than the beneficiary's other insurer's co-pay. Payment will not exceed MDHHS allowed amounts.
5	Managed Care Plan Denial	No longer supported. These values will result in payment denial with NCPDP Reject Code 13, Missing/Invalid Other Coverage Code, which cannot be overridden.
6	Other Coverage Denied – Not a Participating Provider	
7	Other Coverage Exists – Not in Effect on DOS	
8	Claim is billing for co-payment.	

8.1.3 Prime Therapeutics COB Processing

If a beneficiary has other coverage on the date of service and other payments amounts were not listed on the claim, Prime will deny payment with NCPDP Error Code 41, Submit Bill to Other Processor or Primary Payer. The following information in the Additional Message field:

- Carrier ID (the MDHHS unique eight-digit code identifying the other insurer)
- Carrier Name
- Beneficiary Policy Number

New 07/01/2007 – Pharmacy Level TPL Override

Pharmacies can now submit a pharmacy level override using Prior Authorization Type Code (Field # 461-EU) = “1” to override the NCPDP 70 – NDC Not Covered with additional transaction message, “TPL amount collected must be greater than \$2.00” instead of calling or faxing the Prime Therapeutics support center.

If other insurance is indicated on the MDHHS eligibility file, Prime will process the claim as TPL, regardless of what TPL codes the pharmacy submits. Also, if no other insurance is indicated on the MDHHS eligibility file but the pharmacy submits TPL data, Prime will process the claim using the other payment amounts.

Note: If payment is received from multiple other carriers, Prime requires pharmacies to enter the amount paid from all valid carriers in the repeating Other Payer fields.

Reporting Patient Responsibility Amounts (New with D.0 – Replaces Former 20.9 Scenario)

Effective for claims submitted using NCPDP D.0, claims submitted with Other Coverage Code 2 or 4 must report the primary insurance co-pay responsibility in the Other Payer Patient Responsibility Amount (NCPDP Field # 352-NQ).

Billing Instructions

When submitting OCC (NCPDP Field # 308-C8) with a value equal to “2” in the Claim Segment for a COB claim when the primary insurer made a payment, report the following information:

- Report the amount of any beneficiary liability (co-payment, coinsurance, and/or deductible) in the Other Payer Patient Responsibility Amount (NCPDP Field # 352NQ) in the COB Segment.
- Report a zero-dollar (\$0.00) amount if there is no beneficiary liability under the primary insurer in the Other Payer Patient Responsibility Amount (NCPDP Field # 352-NQ) in the COB Segment.
- If the Other Payer Patient Responsibility Amount is not populated, the claim will reject with NCPDP reject code. NQ – M/I Other Payer-Patient Responsibility Amount.
- An override will not be granted.
- Report the amount paid by primary insurer in the Other Payer Amount Paid field (NCPDP Field # 431-DV).

8.1.4 The MDHHS Pharmaceutical Product List (MPPL) and COB

Before MDHHS payment will be made for claims with other insurance liabilities, all requirements listed in the MPPL must be met. This includes prior authorization requirements.

8.1.5 Discount Card/Discount Benefit Response from Primary Insurance - Medicaid COB Requirements

When a pharmacy bills a primary insurance and receives a discount card/discount benefit response, the pharmacy should reverse the claim and resubmit with value of '8' (Patient also eligible with federal/state funded program, coordination of benefit restrictions apply) in the Eligibility Clarification Code Field (NCPDP Field # 309-C9) to receive an appropriate plan benefit response for submission to Medicaid as secondary.

Using an Eligibility Clarification Code of 8 will prevent the claim from reprocessing under the primary insurers plan-sponsored drug discount program, and instead return the expected plan benefit rejected response with the appropriate reject code(s), or paid response with the expected plan benefit pricing. This ensures that claims submitted to Medicaid, or other MDHHS pharmacy programs billed either secondary or tertiary for Coordination of Benefits (COB) will continue processing successfully in accordance with established requirements and prevents the pharmacy from being charged discount card administrative fees in error.

8.1.6 COB Coverage for Select Continuous Glucose Monitoring Systems (CGMS) and Disposable Insulin Pumps

Effective 10/01/2024, MDHHS will allow coordination of benefits for select Continuous Glucose Monitoring Systems (CGMS) and disposable insulin pumps and their respective supplies on the pharmacy claim format when a primary coverage exists, requires billing as pharmacy claim, and has been billed prior to billing MDHHS as a secondary payer.

These select products will remain covered for eligible MDHHS program beneficiaries under the Durable Medical Equipment (DME) program medical benefit when no other insurance applies. Coverage for traditional insulin pumps requiring tubing and cannula type supplies and blood glucose monitors (BGMs) and supplies will remain as a DME medical benefit for all beneficiaries.

The specific products for coverage are listed in the attached document and will also be maintained on the MDHHS Pharmacy web portal at: mi.primetherapeutics.com > Provider Portal > Documents > Fee for Service Drug Coverage.

Billing Instructions

- Submit COB claims utilizing one of the following National Council for Prescription Drug Program (NCPDP) Other Coverage codes in Claim Segment field 308-C8:
 - 2 – Other coverage exists, payment collected [Coinsurance claim]
 - 4 – Other coverage exists, payment not collected [Deductible claim]
- If the coordination of benefits claim is submitted with a null or invalid Other Coverage Code, the claim will deny with NCPDP Reject Code 13 - M/I Other Coverage Code.
- Pharmacy claims submitted for these products but not billed as a coordination of benefit claim (i.e., Other Coverage Code 2 or 4) will reject with both NCPDP 816 – Drug Benefit Exclusion, may be covered by Medical and NCPDP AC – Product Not Covered Non-Participating Manufacturer along with standard transaction message to the pharmacy indicating: Bill as a Medical Supply/DME, non-rebate drugs are excluded.
- Submit COB claims with an ICD-10 code for diabetes in the NCPDP Clinical Segment field 424-DO with a diagnosis qualifier code of “02” (ICD10) in Clinical Segment field 424-WE.
 - Claims submitted without an ICD-10 code for diabetes will reject for NCPDP Reject Code 39 – M/I Diagnosis Code.

For additional billing assistance, contact the Technical Call Center at 877-624-5204.

8.2 Special Instructions for Medicare Part B and Part D

Pharmacies must bill Medicare prior to billing MDHHS for a beneficiary's prescription costs. Part B is medical insurance for doctor services, outpatient hospital care, durable medical equipment (DME), and some take-home drugs. Part D is the Medicare prescription drug program that was

implemented January 1, 2006. As explained in the next sections, there are unique COB considerations for Medicare Parts B and D.

8.2.1 Identifying Individuals Enrolled in Medicare

MDHHS uses its own eight-digit Carrier IDs (Table 10 – MDHHS Carrier IDs Identifying Medicare) to identify beneficiaries eligible or enrolled in Medicare.

Table 10 – MDHHS Carrier IDs Identifying Medicare

Other Payer Carrier ID	Description	Comments
11111111	Medicare – Eligible for, but not enrolled	Applies to both Part B and D.
12121212	Medicare – Eligible for, but not confirmed by CMS	Applies to both Part B and D. If the beneficiary is less than 65 years old and after confirming the beneficiary is not Medicare eligible, the pharmacy may call the Prime Therapeutics Pharmacy Support Center for an override detailing how they verified the patient is not eligible for Medicare Part D
33333333	Medicare – Eligible in Part A	
22222222	Medicare – Eligible, but Opted Out of Medicare Part D	
66666666	Medicare – Enrolled in Medicare Part D	
44444444	Medicare – Enrolled in Part B	
55555555	Medicare – Enrolled in Medicare Advantage Plan (Medicare Part C)	
77777777	Medicare – Aliens, but not enrolled	

8.2.2 Medicare Part B

Appendix D – Medicare Part B Covered Drugs of this manual lists examples of drugs commonly covered by Medicare Part B. For these and other drugs covered by Medicare Part B, pharmacies must first bill Medicare prior to billing MDHHS. After the payment is received from Medicare Part B, MDHHS may pay the co-pays/coinsurance/deductible up to the MDHHS allowable reimbursement levels and if pharmacies:

- Obtain override from the Prime Therapeutics Clinical Support Center for payment of the Part B coinsurance. If claims are denied for payment by Medicare or Medicare Part B does not pay 80 percent, the pharmacy must submit appropriate documentation (e.g., explanation of

benefits or remittance advices) from Medicare prior to being granted an override for payment by the Clinical Support Center.

- Bill with Other Coverage Code “2” in the Claim Segment, after obtaining the Clinical Support Center’s authorization.

When pharmacies do not reflect Medicare Part B payments, their billings will deny with:

- NCPDP Error Code 41, Submit claim to other processor or primary payer; and
- An Additional Message, Bill Medicare Part B.

8.2.3 Medicare Part D

Effective for dates of service on January 1, 2013, and after, beneficiaries dually eligible/enrolled in Medicare and Medicaid (the dual eligibles) receive most prescription drug coverage from Part D. Further, MDHHS will not reimburse Part D prescription drug co-pays, coinsurance, or deductibles for beneficiaries who are eligible for or enrolled in Part D. For additional information about Medicare Part D plans, pharmacies may visit the CMS website at <https://www.cms.gov/Medicare/Medicare.html> or call 1-800-MEDICARE or call 1-866-835-7595, which is the CMS-dedicated pharmacy help line.

For dual eligibles, MDHHS continues to pay (1) for Part B co-pays/deductibles/coinsurance (as previously described) and (2) for the following Part D excluded drug classes as stipulated in the Michigan Pharmaceutical Product List (MPPL) and listed on the Medicare Dual Eligible Covered NDC List found at <https://mi.primetherapeutics.com/> Provider > Documents > Fee For Service Drug Coverage > Medicare Dual Eligible Covered NDC List.

- Specific Over-the-Counter (OTC) drugs
- Specific Prescription Vitamins/Minerals
- Smoking Cessation Products

All MDHHS coverage edits and utilization controls remain in place for the Part B copays/coinsurance/deductibles payments and for the Part D excluded drug classes. Other claims submitted for dual eligibles will deny with the following information.

- NCPDP Error Code 41, Submit Bill to Other Processor or Primary Payer.
- For the dual eligibles, NCPDP Error Code 41 cannot be overridden. Coordination of benefits (COB) overrides are not allowed for Part D covered drugs.
- Part D plan information in the Additional Message field:
 - Medicare Contract/Plan ID
 - Plan Name
 - Plan Phone Number

If a patient is eligible for Medicare Part D but has not enrolled in a Part D plan, please refer to the Li-NET link <https://www.humana.com/pharmacy/pharmacists/> for claims processing instructions. The Limited Income NET Program (or LI NET) is designed to eliminate any gaps in coverage for low-income individuals transitioning to Medicare Part D drug coverage.

9.0 Prescriber Enrollment Requirement

Effective October 1, 2019, providers who prescribe drugs to Medicaid beneficiaries must actively be enrolled in the Community Health Automated Medicaid Processing System (CHAMPS), the state's online Medicaid enrollment system. The Michigan Department of Health and Human Services (MDHHS) will prohibit Fee-for-Service (FFS) and Medicaid Health Plan (MHP) payment for prescription drug claims written by a prescriber who is not enrolled in CHAMPS. Claims will be denied for NCPDP EC 889 – Prescriber Not Enrolled in State Medicaid Program. This is required under federal law. For more information on this, you may direct prescribers to the following resources:

- MDHHS Provider Enrollment website: <https://www.michigan.gov/medicaidproviders>
- MDHHS Provider Enrollment Help Desk: (800) 292-2550
- MDHHS Mailbox: MDHHSPharmacyServies@michigan.gov

9.1 Submission Clarification Codes

Since July 1, 2018, Medicaid Fee-for-Service (FFS) and Medicaid Health Plans have posted the following informational edit on pharmacy claims for drugs written by a prescriber who is not enrolled in CHAMPS:

- NCPDP Code 889: PRESCRIBER NOT ENROLLED IN STATE MEDICAID PROGRAM

Starting October 1, 2019, subsequent claims with this edit will be denied.

There may be certain emergency circumstances in which a beneficiary must receive their prescription medication. In those instances, the pharmacy may override the edit using either of the following Submission Clarification Codes in NCPDP field 420-DK when applicable:

- 13 – Payer-Recognized Emergency/Disaster Assistance Request
- 55 – Prescriber Enrollment in State Medicaid Program has been validated

When the above codes are not applicable, a pharmacy or prescriber may initiate an override request by contacting the healthcare payer's Pharmacy Help Desk. For overrides on Medicaid FFS claims, call 877-624-5204. For Medicaid Health Plan contact information, visit www.michigan.gov/MCOPharmacy.

10.0 Brand versus Generic Requirements

- To override generic pricing, a clinical prior authorization for “Brand Medically Necessary” (DAW 1) is required.
- The beneficiary is never required to pay a MAC penalty (difference between the brand and the generic product).
- Requests to override PA – Brand Medically Necessary (DAW 1) will be handled by the Prime Therapeutics Clinical Support Center.
- If the drug is a multi-source brand (MSB) and a MAC exists and the claim is submitted with a DAW 1 – Substitution Not Allowed by Prescriber, the claim will deny unless a clinical prior authorization is on file for the beneficiary (except for exceptions).
- If a prior authorization is on file for the beneficiary, the claim submitted with a DAW 1 will reimburse using the standard reimbursement logic.
- If a prior authorization is on file for the beneficiary and the claim is not submitted with a DAW 1, the claim will be reimbursed using the standard reimbursement logic, including the MAC price.
- Overrides for DAW 1 will allow the MAC and NADAC-generic pricing to be bypassed and the claim will pay at NADAC-brand.
- DAW 2 is not allowed.
- For PDL preferred brands over the generic, claims may be submitted with either of the following DAW codes for brand reimbursement:
 - DAW 0 (No product Selection Indicated)
 - DAW 9 (Substitution Allowed by Prescriber but Plan Requests Brand)

11.0 COVID-19

11.1 Waiving COVID-19 Related Prescription Co-pays

MDHHS is waiving co-pays for beneficiaries at point-of-sale for drug products to treat COVID-19. Both Fee-for-Service (FFS) and managed care pharmacy claims using the National Council for Prescription Drug Programs (NCPDP) claim format should be submitted using one of the options below. This will ensure that prescriptions for the treatment of COVID-19 will not be subject to co-pays at point-of-sale or during post-adjudication cost share invoicing processing for a patient diagnosed with COVID-19.

- **Diagnosis Code:** Pharmacy claims should be submitted with ICD-10-CM code B97.29, U07.1, Z11.52 or Z20.822 when diagnosis code is reported on the prescription order.
- **Prior Authorization Type Code:** In instances where the prescription does not include a COVID-19 diagnosis code and the pharmacy understands the prescription is for the treatment of COVID-19, the pharmacy shall submit the Prior Authorization Type Code value of "4" (4 = Exemption from Co-pay and/or Co-insurance) in NCPDP Field 461-EU. Pharmacies that are unable to submit these indicators should contact the Prime Therapeutics Pharmacy Technical Call Center at 877-624-5204 for a co-pay override.
- **Help Desk Override Request:** For overrides on FFS claims, call the Prime Therapeutics Pharmacy Technical Call Center at 877-624-5204. For Medicaid Health Plan contact information, visit www.michigan.gov/MCOpharmacy.
- Pharmacies who have submitted claims for COVID-19 treatment should refund co-pay amounts to the beneficiary. Pharmacies must resubmit claims to receive the full amount.

11.2 COVID-19 Vaccine Claim Processing

Effective 12/01/2020, Providers may submit claims for the COVID-19 vaccine. NCPDP recommends specific values for COVID-19 claims:

- **SUBMISSION CLARIFICATION CODE** (NCPDP Field # 420-DK) = 2 (Other Override OR = 6 (Starter Dose)
- **PROFESSIONAL SERVICE CODE** (NCPDP Field # 440-E5) = Value "MA" (Medication Administered). Claims will deny if MA is not entered on the claim.
- **INCENTIVE AMOUNT SUBMITTED** (NCPDP Field # 438-E3). Incentive fee will be paid where submission clarification code = 2 (initial dose) is submitted on the claim. Incentive fee will be paid where submission clarification code = 6 (subsequent dose) is submitted on the claim.
- **PRESCRIPTION ORIGIN CODE** (NCPDP Field # 419-DJ) = Value 5 (Pharmacy)
- **BASIS OF COST DETERMINATION** (NCPDP Field # 423-DN) = Value 15 (free product or no associated cost)

- DAYS SUPPLY (NCPDP Field # 405-D5 = Value 1
- FILL NUMBER (NCPDP Field # 403-D3) Values are as follows:
 - 0
 - 1 – 99
- PRESCRIPTION/SERVICE REFERENCE NUMBER (NCPDP Field # 402-D2)
- PATIENT RESIDENCE (NCPDP Field # 384-3X) values are as follows:
 - 0 – Not Specified
 - 1 – Home
 - 2 – Skilled Nursing Facility PART B ONLY
 - 3 – Nursing Facility
 - 4 – Assisted Living Facility
 - 5 – Custodial Care Facility PART B ONLY
 - 6 – Group Home
 - 7 – Inpatient Psychiatric Facility
 - 8 – Psychiatric Facility-Partial Hospitalization
 - 9 – Intermediate Care Facility/Mentally Retarded
 - 10 – Residential Substance Abuse Treatment Facility
 - 11 – Hospice
 - 12 – Psychiatric Residential Treatment Facility
 - 13 – Comprehensive Inpatient Rehabilitation Facility
 - 14 – Homeless Shelter
 - 15 – Correctional Institution
- PHARMACY SERVICE TYPE (NCPDP Field # 147-U7) values are as follows:
 - 1 – Community/Retail Pharmacy Services
 - 2 – Compounding Pharmacy Services
 - 3 – Home Infusion Therapy Provider Services
 - 4 – Institutional Pharmacy Services
 - 5 – Long Term Care Pharmacy Services
 - 6 – Mail Order Pharmacy Services
 - 7 – Managed Care Organization Pharmacy Services
 - 8 – Specialty Care Pharmacy Services
 - 99 – Other
- PLACE OF SERVICE (NCPDP Field # 307-C7)

11.2.1 COVID-19 Vaccine Reimbursement Logic

The following reimbursement logic will be in place for COVID 19 vaccine claims:

1. Pharmacies may bill and will be reimbursed for the COVID-19 vaccine administration in accordance with existing policies and reimbursement rates that align with the practitioner fee screens.
2. Reimbursement logic will pay \$0.00 dispense fee; reimbursement will occur through incentive fees.
3. Incentive fee logic will pay \$42.00.
4. Member co-pays are waived.
5. Claims for the ESO groups will need to be submitted with a Level of Service = 3 in order to pay. LEVEL OF SERVICE (NCPDP Field #418DI) Claims for the ESO Groups will need to be submitted with a Level of Service = 3 in order for the claim to pay.

11.3 COVID-19 Vaccine Pharmacy Billing for Additional Doses and Place of Residence Administration

Effective August 12, 2021, the Michigan Department of Health and Human Services (MDHHS) is covering additional doses of the Pfizer-BioNTech COVID-19 vaccine and the Moderna COVID-19 vaccine in alignment with the Centers for Disease Control and Prevention (CDC) Advisory Committee on Immunization Practices (ACIP) recommendations.

Effective June 8, 2021, COVID-19 vaccine administration is covered for Medicaid recipients in their place of residence. Pharmacies may bill and will be reimbursed for the COVID-19 vaccine administration in accordance with existing policies and reimbursement rates that align with the practitioner fee screens. Pharmacy specific COVID-19 vaccine services billing instructions will be incorporated into the Pharmacy Claims Processing Manual at: >> Documents >> Manuals.

Pharmacies must submit claims in accordance with NCPDP Guidance as follows below:

- Professional Service Code = “MA” (Medication Administered)
- Incentive Amount Submitted
- Submission Clarification Code (SCC) ‘2’ (Other Override) and ‘6’ (Starter Dose)
 - SCC = 2 indicates a first dose
 - SCC = 6 indicates a final dose
 - **SCC = 7 indicates additional dose**
- Prescription Origin Code ‘5’
- Basis of Cost Determination ‘15’ (free product or no associated cost)
- **FOR HOME ADMINISTRATION: Place of Service = “12” (Home)**

For more information on billing for COVID-19 Vaccine administration, please review the [NCPDP Guidance](#).

MDHHS will reimburse a \$42.00 incentive fee regardless of first, second or single dose. An additional \$37.28 will be reimbursed for administration in the home (i.e., Place of Service = 12). There is no co-pay required for members to receive the vaccine.

COVID-19 vaccine services are covered for beneficiaries with the ESO benefit plan. Services are covered consistent with treatment provisions outlined in MSA 20-40 and claims for the ESO groups will need to be submitted with a Level of Service = 3.

Appendix A – Payer Specifications for NCPDP D.0

Michigan Medicaid D.0 Payer Specification

August 30, 2021

Other versions supported: VERSION 5.1 UNTIL 01/01/2012 “ SUBJECT TO CHANGE*		

Other Transactions Supported

Payer: Please list each transaction supported with the segments, fields, and pertinent information on each transaction.

Transaction Code	Transaction Name
B1	Claim Billing
B2	Claim Reversal
B3	Claim Re-bill
E1	Eligibility Verification

Field Legend for Columns

Payer Usage Column	Value	Explanation	Payer Situation Column
MANDATORY	M	The field is mandatory for the Segment in the designated Transaction.	No
REQUIRED	R	The field has been designated with the situation of "Required" for the Segment in the designated Transaction.	No
QUALIFIED REQUIREMENT	RW	"Required when." The situations designated have qualifications for usage ("Required if x," "Not required if y").	Yes

Fields that are not used in the Claim Billing/Claim Re-bill transactions and those that do not have qualified requirements (i.e., not used) for this payer are excluded from the template.

Claim Billing/Claim Re-bill Transaction

The following lists the segments and fields in a Claim Billing or Claim Re-bill Transaction for the NCPDP Telecommunication Standard Implementation Guide Version D.0.

Transaction Header Segment Questions	Check	Claim Billing/Claim Re-bill If Situational, Payer Situation
This Segment is always sent	X	
Source of certification IDs required in Software Vendor/Certification ID (110-AK) is Payer Issued		
Source of certification IDs required in Software Vendor/Certification ID (110-AK) is Switch/VAN issued		
Source of certification IDs required in Software Vendor/Certification ID (110-AK) is Not used		

Transaction Header Segment		Claim Billing/Claim Re-bill		
Field #	NCPDP Field Name	Value	Payer Usage	Payer Situation
101-A1	BIN NUMBER	009737	M	Michigan Department of Community Health
102-A2	VERSION/RELEASE NUMBER	D0	M	

Transaction Header Segment		Claim Billing/Claim Re-bill		
Field #	NCPDP Field Name	Value	Payer Usage	Payer Situation
103-A3	TRANSACTION CODE	B1 B2 B3 E1	M	B1 Billing B2 Reversal B3 Re-Bill E1 Eligibility Verification
104-A4	PROCESSOR CONTROL NUMBER	P008009737	M	
109-A9	Transaction Count	1 One Occurrence 2 Two Occurrences 3 Three Occurrences 4 Four Occurrences	M	Specify max number of transactions supported for each transaction code.
202-B2	SERVICE PROVIDER ID QUALIFIER	01 - National Provider Identifier (NPI)	M	
201-B1	SERVICE PROVIDER ID	NPI	M	
401-D1	DATE OF SERVICE	Format = CCYYMMDD	M	
110-AK	SOFTWARE VENDOR/CERTIFICATION ID		M	Assigned by Prime

Insurance Segment Questions	Check	Claim Billing/Claim Re-bill If Situational, Payer Situation
This Segment is always sent	X	

Insurance Segment Identification (111-AM) = "04"		Claim Billing/Claim Re-bill		
Field #	NCPDP Field Name	Value	Payer Usage	Payer Situation
302-C2	CARDHOLDER ID		M	Medicaid ID Number <Michigan Medicaid> 10-digit ID

Insurance Segment Identification (111-AM) = “Ø4”		Claim Billing/Claim Re-bill		
Field #	NCPDP Field Name	Value	Payer Usage	Payer Situation
3Ø1-C1	GROUP ID	MIMEDICAID	R	
3Ø3-C3	PERSON CODE			<i>Imp Guide:</i> Required if needed to uniquely identify the family members within the Cardholder ID. <i>Payer Requirement:</i> Same as <i>Imp Guide</i> .
3Ø6-C6	PATIENT RELATIONSHIP CODE	1 = Cardholder	R	
36Ø-2B	MEDICAID INDICATOR	Two-character State Postal Code indicating the state where Medicaid coverage exists.	RW	<i>Imp Guide:</i> Required, if known, when patient has Medicaid coverage. Ex: MI
115-N5	MEDICAID ID NUMBER	A unique member identification number assigned by the Medicaid Agency	RW	<i>Imp Guide:</i> Required, if known, when patient has Medicaid coverage.

Patient Segment Questions	Check	Claim Billing/Claim Re-bill If Situational, Payer Situation

NCPDP Version D Claim Reversal

Request Claim Reversal Payer Sheet

****Start of Request Claim Reversal (B2) Payer Sheet Template****

General Information

Payer Name: Michigan Medicaid	Date:	
Plan Name/Group Name: MI01/MIMEDICAID	BIN: 009737	PCN: P008009737

Field Legend for Columns

Payer Usage Column	Value	Explanation	Payer Situation Column
MANDATORY	M	The Field is mandatory for the Segment in the designated Transaction.	No
REQUIRED	R	The Field has been designated with the situation of "Required" for the Segment in the designated Transaction.	No
QUALIFIED REQUIREMENT	RW	"Required when." The situations designated have qualifications for usage ("Required if x," "Not required if y").	Yes
NOT USED	NA	The Field is not used for the Segment in the designated Transaction. Not used are shaded for clarity for the Payer when creating the Template. For the actual Payer Template, not used fields must be deleted from the transaction (the row in the table removed).	No

Question	Answer
What is your reversal window? (If transaction is billed today what is the timeframe for reversal to be submitted?)	9999 days

Claim Reversal Transaction

The following lists the segments and fields in a Claim Reversal Transaction for the NCPDP Telecommunication Standard Implementation Guide Version D.0.

Transaction Header Segment Questions	Check	Claim Reversal If Situational, Payer Situation
This Segment is always sent	X	
Source of certification IDs required in Software Vendor/Certification ID (11Ø-AK) is Payer Issued	X	
Source of certification IDs required in Software Vendor/Certification ID (11Ø-AK) is Switch/VAN issued		
Source of certification IDs required in Software Vendor/Certification ID (11Ø-AK) is Not used		

Transaction Header Segment		Claim Reversal		
Field #	NCPDP Field Name	Value	Payer Usage	Payer Situation
1Ø1-A1	BIN NUMBER	009737	M	
1Ø2-A2	VERSION/RELEASE NUMBER	DØ	M	
1Ø3-A3	TRANSACTION CODE	B2 - Reversal	M	
1Ø4-A4	PROCESSOR CONTROL NUMBER	P008009737	M	
1Ø9-A9	TRANSACTION COUNT		M	
2Ø2-B2	SERVICE PROVIDER ID QUALIFIER	01	M	01 = National Provider Identifier (NPI)
2Ø1-B1	SERVICE PROVIDER ID	National Provider Identifier (NPI)	M	
4Ø1-D1	DATE OF SERVICE	Format = CCYYMMDD	M	
11Ø-AK	SOFTWARE VENDOR/CERTIFICATION ID	0000000000	M	Assigned by Prime

Insurance Segment Questions	Check	Claim Reversal If Situational, Payer Situation
This Segment is always sent	X	
This Segment is situational		

Insurance Segment Segment Identification (111-AM) = "Ø4"		Claim Reversal		
Field #	NCPDP Field Name	Value	Payer Usage	Payer Situation
3Ø2-C2	CARDHOLDER ID	MI MEDICAID ID	M	Medicaid ID Number <patient specific>
3Ø1-C1	GROUP ID	MIMEDICAID	RW	<i>Imp Guide:</i> Required if needed to match the reversal to the original billing transaction. <i>Payer Requirement:</i> Same as <i>Imp Guide</i> .

Claim Segment Questions	Check	Claim Billing/Claim Re-bill If Situational, Payer Situation
This Segment is always sent	X	
This payer supports partial fills	X	
This payer does not support partial fills		

Claim Segment Segment Identification (111-AM) = "Ø7"		Claim Reversal		
Field #	NCPDP Field Name	Value	Payer Usage	Payer Situation
455-EM	PRESCRIPTION/SERVICE REFERENCE NUMBER QUALIFIER	1	M	<i>Imp Guide:</i> For Transaction Code of "B2," in the Claim Segment, the Prescription/Service Reference Number Qualifier (455-EM) is "1" (Rx Billing).
4Ø2-D2	PRESCRIPTION/SERVICE REFERENCE NUMBER		M	
436-E1	PRODUCT/SERVICE ID QUALIFIER	00 = Not Specified	M	

Claim Segment Segment Identification (111-AM) = “Ø7”		Claim Reversal		
Field #	NCPDP Field Name	Value	Payer Usage	Payer Situation
		03 = National Drug Code		
4Ø7-D7	PRODUCT/SERVICE ID	NDC – for noncompound claims '0' – for compound claims	M	
4Ø3-D3	FILL NUMBER	0 1-99	RW	<i>Imp Guide:</i> Required if needed for reversals when multiple fills of the same Prescription/Service Reference Number (4Ø2-D2) occur on the same day. <i>Payer Requirement:</i> Same as <i>Imp Guide</i> .
3Ø8-C8	OTHER COVERAGE CODE		RW	<i>Imp Guide:</i> Required if needed by receiver to match the claim that is being reversed. <i>Payer Requirement:</i> For OCC =2, 3, 4, the COB request segment is required.

Pricing Segment Questions	Check	Claim Reversal If Situational, Payer Situation
This Segment is always sent	X	

Pricing Segment Segment Identification (111-AM) = “11”		Claim Reversal		
Field #	NCPDP Field Name	Value	Payer Usage	Payer Situation
438-E3	INCENTIVE AMOUNT SUBMITTED		RW	<i>Imp Guide:</i> Required if this field could result in contractually agreed upon payment.

Pricing Segment Segment Identification (111-AM) = "11"		Claim Reversal

Completion Instructions for the Universal Claim Form:

1. Complete all applicable areas on the front of the form. Type or print the information legibly. The use of correction fluid is not acceptable. Each area is numbered.
2. Verify patient information is correct and that patient named is eligible for benefits.
3. Ensure that the patient's signature is in the authorization box in the certification section on front side of the form for prescription(s) dispensed.
4. Do not exceed one set of DUR/PPS codes per claim.
5. Worker's Compensation Injury Claims – Michigan Medicaid does not accept this segment
6. Compound Prescriptions – Enter a single zero in the Product/Service I.D. area and list each ingredient name, NDC, quantity, and cost in the Product/Service I.D. box. The route of administration must also be included

Note: Use a new Universal Claim Form for each compound prescription.

7. Home Infusion Therapy – Enter the appropriate NDC in the Product/Service I.D. area and enter "8" for the Prior Authorization Type Code. Home Infusion Therapy containing several products should be billed as a compound and not separately under each NDC

Definition of Values

In addition to the general guidelines above, pharmacies must use the code values listed when completing the following selected fields of the Universal Claim Form.

1. Other Coverage Code

- 1 Not supported
- 2 Other coverage exists – payment collected
- 3 Other coverage exists – this claim not covered
- 4 Other coverage exists – payment not collected
- 5–8 Not supported

2. Person Code

Code assigned to a specific person within a family. Code should always be cardholder.

3. Patient Gender Code

- 1 Male
- 2 Female

4. Patient Relationship Code

- 1 Cardholder

5. Service Provider ID Qualifier

01 NPI provider ID

6. Carrier ID in Workers Comp. Information

Leave blank, unless workers compensation applies. Enter the Carrier Code assigned in Workers' Compensation Program.

7. Claim/Reference ID

Enter the claim number assigned by Worker's Compensation Program. Michigan Medicaid does not accept this segment

8. Prescription Service Reference # Qualifier

1 Rx billing

9. Quantity Dispensed

Enter Quantity dispensed expressed in metric decimal units (shaded areas for decimal values).

10. Product/Service ID Qualifier (Qual)

This is the code qualifying the value in Product/Service ID (NCPDP Field # 407-07).

If compound is used, enter the most expensive NDC ingredient.

03 National Drug Code (NDC)

11. Prior Authorization Type Code (PA Type)

- 0 Not specified
- 1 Prior Authorization
- 2 Medical Certification
- 3 EPSDT (Early Periodic Screening Diagnosis Treatment)
- 4 Exemption from co-pay
- 5 Exemption from Rx limits
- 6 Family Planning Indicator
- 7 Aid to Families with Dependent Children (AFDC)
- 8 Payer defined exemption

12. Prescriber Provider ID Qualifier

Use Qualifier "01 – NPI"

13. DUR/Professional Service Codes

- A Reason for service
- B Professional Service code
- C Result of Service

14. Basis of Cost Determination

- Blank Not specified
- 00 Not specified
- 01 AWP (average wholesale price)
- 02 Local Wholesale
- 03 Direct
- 04 EAC (Estimated Acquisition Cost)
- 05 Acquisition
- 06 MAC (Maximum Allowable Cost)
- 07 Usual and Customary (U&C)
- 09 Other

15. Provider Id Qualifier

Use Qualifier “01” for the NPI number of the pharmacy

16. Other Payer ID Qualifier

- 99 Other – MDHHS Carrier ID

Note: For any other definitions or acceptable values, please refer to the [Payer Specs](#) section of this manual.

Appendix C – MDHHS Maintenance Drug List

A maximum supply of 102 days is allowed for drugs in the following therapeutic classes. Certain drugs may have specific quantity limits that supersede this list. See the MPPL at <https://mi.primetherapeutics.com/>. Click the **Provider** and then **Documents > Other Drug Information**.

Therapeutic Class	Name
05	Bile Therapy
09	Antiparkinson Agents
11	Psychostimulants/Antidepressants
15	Bronchodilators
32	Antimalarials
33	Antivirals
34	TB Preparations
48	Anticonvulsants
52	Mineralocorticoids
55	Thyroid Preparations
56	Anti-Thyroid Preparations
58	Diabetic Therapy
61	Estrogens
62	Progesterone
63	Oral Contraceptives
66	Cholesterol Reducers
67	Digestants
69	Enzymes
70	Rauwolfia Preparations
71	Other Hypotensives
72	Vasodilators: Coronary
73	Vasodilators: Peripheral
74	Digitalis Preparations
75	Xanthine Derivatives
76	Cardiovascular Preparations: Other

Therapeutic Class	Name
77	Anticoagulants
79	Diuretics
80	Vitamins: Fat Soluble
81	Vitamins: Water Soluble
82	Multivitamin Preparations
83	Folic Acid Preparations
84	B Complex with Vitamin C
87	Electrolytes and Misc. Nutrients
88	Hematinics (with the exception of Darbepoetin, Epoetin, Filgrastim, and Pegfilgrastim)

Appendix D – Medicare Part B Covered Drugs

After payment is received from Part B for individuals dually enrolled in Medicare and Medicaid, MDHHS may pay the dual eligible's coinsurance up to the MDHHS allowable reimbursement levels. As explained in the Section 7.0 – Program Specifications of the Michigan Pharmacy Claims Processing Manual, pharmacies must call the Pharmacy Support Center to obtain override for the coinsurance payment.

Note: If a drug is not covered by Part B for reasons other, then patient deductible and a patient is eligible for both Medicare Part B and Medicare Part D, the claim should be billed to Medicare Part D for coverage.

Examples of Part B covered drugs include, but are not limited to, the following products:

Table 10 – Medicare Part B Covered Drugs

Description	Use
Busulfan	Cancer
Capecitabine	Cancer
Etoposide	Cancer
Melphalan	Cancer
Azathioprine	Immunosuppressive
Cyclophosphamide	Immunosuppressive
Cyclosporine	Immunosuppressive
Mycophenolate Mofetil	Immunosuppressive
Sirolimus	Immunosuppressive
Tacrolimus	Immunosuppressive
Methotrexate	Cancer
Acetylcysteine	Inhalation
Albuterol	Inhalation
Bitolterol	Inhalation
Budesonide	Inhalation
Cromolyn	Inhalation
Dornase Alpha	Inhalation
Ipratropium	Inhalation
Isoetharine	Inhalation

Description	Use
Metaproterenol	Inhalation
Pentamidine	Inhalation
Tobramycin	Inhalation
Dolasetron	Antiemetic
Dronabinol	Antiemetic
Granisetron	Antiemetic
Ondansetron	Antiemetic
Blood sugar diagnostics	Diabetic
Diabetic Supplies	Diabetic
Temozolomide	Cancer
Epoetin Alfa	Cancer
Darbepoetin Alfa	Cancer
Antihemophilic factors	Hemophilia
Factor IX preparations	Hemophilia
Azathioprine	Immunosuppressive
Cyclosporine	Immunosuppressive
Daclizumab	Immunosuppressive
Muromonab	Immunosuppressive
Mycophenolate	Immunosuppressive
Sirolimus	Immunosuppressive
Tacrolimus	Immunosuppressive
Ipratropium	Inhalation
Levalbuterol	Inhalation
Lymphocyte Immune Globulin	Immunosuppressive
Iloprost	Inhalation
Mycophenolate Sodium	Immunosuppressive
Arformoterol Tartrate	Inhalation

Appendix E – ProDUR

ProDUR Problem Types

Prospective drug utilization review encompasses the detection, evaluation, and counseling components of pre-dispensing drug therapy screening. The ProDUR system of Prime assists in these functions by addressing situations in which potential drug problems may exist. ProDUR performed prior to dispensing assists the pharmacists to ensure that their patients receive the appropriate medications.

Because the Prime ProDUR system examines claims from all participating pharmacies, drugs that interact or are affected by previously dispensed medications can be detected. Prime recognizes that the pharmacists use their education and professional judgments in all aspects of dispensing. ProDUR is offered as an informational tool to aid the pharmacists in performing their professional duties.

Listed below are all the ProDUR Conflict Codes within the Prime system for the Michigan Medicaid Program.

Conflict Codes	Description	Disposition	Comments
DD	Drug-to-Drug Interaction	Deny Severity Level 1, alert only on others	May be overridden by the provider at the POS using the NCPDP DUR override codes.
ER	Early Refill	Deny	Pharmacies must contact the Prime Therapeutics Pharmacy Support Center (877-624-5204) to request an override
LR	Late Refill	Alert only	
TD	Therapeutic Duplication	Deny on selected therapeutic classes, alert only on others	May be overridden by a pharmacy at the POS using the NCPDP DUR override codes
ID	Duplicate Ingredient	Alert only	
LD, HD	Minimum/Maximum Daily Dosing	Alert only	
PA	Drug-to-Pediatric Precaution	Alert only on Severity Level 1	
PA	Drug-to-Geriatric Precaution	Alert only on Severity Level 1	

Conflict Codes	Description	Disposition	Comments
DC	Drug-to-Inferred Disease	Alert only on Severity Level 1	
SR	Prerequisite Drug Therapy	Deny	
SX	Drug to Gender	Deny on Severity Levels 1 and 3	Pharmacies should contact the Prime Therapeutics Clinical Support Center (877-864-9014) to request an override.
PP	Plan Protocol	Deny	Anti-Ulcer Call Clinical Support Center, after 102 days on high dose. See website for HD edit.

Drug Utilization Review (DUR) Fields

The following are the ProDUR edits that will deny for MDHHS:

- Drug/Drug Interactions – (Severity Level 1) – Provider overrides allowed.
- Early Refill – Contact Pharmacy Support Center to request an override.
- Therapeutic Duplication – (selected therapeutic classes) – Provider overrides allowed.
- Drug to Gender – (Severity Level 1) – Clinical Support Center may PA.
- Plan Protocol – Anti-Ulcer prerequisite.

NCPDP	Message
88	DUR Reject Error

Also note that the following ProDUR edits will return a warning message only; i.e., an override is not necessary:

- Late Refill
- Duplicate Ingredient
- Minimum/Maximum Daily Dosing
- Drug to Pediatric Precautions – (Severity Level 1)
- Drug to Geriatric Precautions – (Severity Level 1)
- Drug to Inferred Disease – (Severity Level 1)
- Therapeutic Duplication – (Selected Therapeutic Classes)

Note: Provider overrides are processed on a per-claim (date of service only) basis. For quality of care purposes, pharmacists are required to retain documentation relative to these overrides.

DUR Reason for Service

The DUR Reason for Service is used to define the type of utilization conflict that was detected (NCPDP Field # 439-E4). For MDHHS, valid DUR Reason for Service codes are

- DD – Drug/Drug Interactions;
- TD – Therapeutic Duplication;
- ER – Early Refill; and
- SX – Drug/Sex Restriction.

NCPDP	Message
E4	M/I DUR Conflict/Reason for Service Code

DUR Professional Service

The DUR Professional Service (previously “Intervention Code”) is used to define the type of interaction or intervention that was performed by the pharmacist (NCPDP Field # 440-E5).

Valid DUR Professional Service Codes for the Michigan Medicaid Program are:

- 00 No Intervention;
- CC Coordination of Care;
- M0 Prescriber Consulted;
- PH Patient Medication History;
- P0 Patient Consulted; and
- R0 Pharmacist Consulted Other Source.

NCPDP	Message
E5	M/I DUR Intervention/Professional Service Code

DUR Result of Service

The DUR Result of Service (previously “Outcome Code”) is used to define the action taken by the pharmacist in response to a ProDUR Reason for Service or the result of a pharmacist’s professional service (NCPDP Field # 441-E6).

Valid DUR Result of Services for the Michigan Medicaid Program are:

- 1A Filled As Is, False Positive;
- 1B Filled Prescription As Is;
- 1C Filled With Different Dose;

- 1D Filled With Different Directions;
- 1F Filled With Different Quantity;
- 1G Filled With Prescriber Approval;
- 3B Recommendation Not Accepted; and
- 3C Discontinued Drug.

NCPDP	Message
E6	M/I DUR Outcome/Result of Service Code

Note: Provider overrides are allowed on claims denied for REASON FOR SERVICE DD (Drug-to-Drug Interactions) or TD (Therapeutic Duplications). Pharmacies must submit the allowed Professional Service and Result of Service codes as listed above.

If other values are submitted, the claim will continue to deny.

Prospective Drug Utilization Review (ProDUR)

ER/Early Refill	<p>ER edit is hitting because of an LTC new admission or a readmission. Provider overrides PA by entering Submission Clarification Code field = "05."</p> <p>If the provider is trying to submit this override and the patient is NOT flagged with an ACTIVE LTC or Patient Attribute record, the claim will continue to deny. If this situation occurs, please advise the provider of the following:</p> <p>When a Medicaid beneficiary is admitted to a facility, the facility is to enter admission and discharge information directly in CHAMPS. This will result in real-time changes to the beneficiary's Program Enrollment Type (PET) code. The PET code precisely reflect the program and additional information on the living arrangement of the beneficiary. The facility would need to make the necessary changes in the system for the record to be updated.</p>
D/Therapeutic Duplication	
DD/Drug-to-Drug Contraindication	

Drug/Drug Interactions and Therapeutic Duplication

POS Override Procedure

The Prime POS system provides online assistance for the dispensing pharmacist. Incoming drug claims are compared to a beneficiary's pharmacy claims history file to detect potential drug/drug interactions and therapeutic duplications.

ProDUR denials are returned to the pharmacist when the POS process finds a SEVERITY LEVEL 1 problem as defined by First Databank. These denials are intended to assist the pharmacist awareness of beneficiary specific potential problems. These POS denials are not intended to replace the clinical judgment of the dispensing pharmacist.

Use the attached override procedure when you as the dispensing pharmacist have made a beneficiary-specific clinical decision to override the POS denial/alert. For quality of care purposes, pharmacists are required to retain documentation relative to these overrides.

Also attached are the NCPDP-specific codes that may be used in the respective Reason for Service, DUR Professional Service, and DUR Result of Service. Please note that each pharmacy's software may present the NCPDP standard override procedure fields differently.

DUR Reason for Service

The DUR Conflict Code is used to define the type of utilization conflict that was detected (NCPDP Field # 439-E4).

Valid DUR Conflict Codes for the Michigan Medicaid Program are

- DD Drug/Drug Interactions; and
- TD Therapeutic Duplication.

If one of the above two options are not used, the following error message will be returned:

NCPDP	Message
E4	M/I DUR Conflict/Reason for Service Code

Appendix F – POS Reject Codes and Messages

After a pharmacy online claims submission, the Prime POS system returns messages that comply with NCPDP standards. Messages focus on ProDUR and POS rejection codes, as explained in the next sections.

ProDUR Alerts

If a pharmacy needs assistance interpreting ProDUR alert or denial messages from the Prime POS system, the pharmacy should contact the Pharmacy Support Center Services at the time of dispensing. Refer to [Appendix G – Directory](#) at the end of this manual for contact information.

The Pharmacy Support Center can provide claims information on all error messages, which are sent by the ProDUR system. This information includes NDCs and drug names of the affected drugs, dates of service, whether the calling pharmacy is the dispensing pharmacy of the conflicting drug, and days' supply. All ProDUR alert messages appear at the end of the claims adjudication transmission. The following table provides the format that is used for these alert messages.

Table 11 – Record Format for ProDUR Alert Messages

Format	Field Definitions
?//	Up to three characters – Code transmitted to pharmacy when a conflict is detected (e.g., ER, HD, TD, DD)
Severity Index Code	One character – Code indicates how critical a given conflict is
Other Pharmacy Indicator	One character – Indicates if the dispensing provider also dispensed the first drug in question 1 = Your pharmacy 3 = Other pharmacy
Previous Date of Fill	Eight characters – Indicates previous fill date of conflicting drug in YYYYMMDD format
Quantity of Previous Fill	Five characters – Indicates quantity of conflicting drug previously dispensed
Data Base Indicator	One character – Indicates source of ProDUR message 1 = First Databank 4 = Processor Developed
Other Prescriber	One character – Indicates the prescriber of conflicting prescription

Format	Field Definitions
	0 = No Value 1 = Same Prescriber 2 = Other Prescriber

Point-of-Sale Reject Codes and Messages

The following table lists the rejection codes and explanations, possible B1, B2, B3 fields that may be related to denied payment, and possible solutions for pharmacies experiencing difficulties. All edits may not apply to this program. Pharmacies requiring assistance should call the Prime Therapeutics Pharmacy Support Center. Refer to *Appendix G – Directory* at the end of this manual for contact information.

Table 12 – Point-of-Sale Reject Codes and Messages

NCPDP Reject Code	NCPDP Reject Code Description	Comments
Ø1	M/I BIN Number	Use 009737
Ø2	M/I Version/Release number	Version allowed = 5.1 until 12/31/2011. D.O beginning 01/01/2012
Ø3	M/I Transaction code	Transactions allowed = B1, B2, B3, E1
Ø4	M/I Processor control number	Use P008009737
Ø5	M/I Service Provider number	
Ø6	M/I Group ID	Use MIMEDICAID only
Ø7	M/I Cardholder ID	Use Michigan Medicaid Beneficiary ID number only.
Ø8	M/I Person code	
Ø9	M/I Date of Birth	Format is CCYYMMDD
1Ø	M/I Patient Gender Code	Allowed Values: 1 = Male 2 = Female
11	M/I Patient Relationship Code	Allowed Value: 1 = Cardholder
12	M/I Place of Service	

NCPDP Reject Code	NCPDP Reject Code Description	Comments
13	M/I Other coverage code	Allowed Values: 01 – No longer allowed 02 – Other coverage exists – payment collected 03 – Other coverage exists – claim not covered 04 – Other coverage exists – payment not collected 05. 06, 07, 08 – No longer allowed
14	M/I Eligibility Clarification Code	
15	M/I Date of Service	Format = CCYYMMDD
16	M/I Prescription/Service Reference Number	Format is NNNNNNNNNNNN
17	M/I Fill Number	Enter 00 for new prescription Enter range from 01 – 99 for a refill
19	M/I Days' supply	Format is NNN
20	M/I Compound code	Allowed Values: 1 = Not a compound 2 = Compound
21	M/I Product/Service ID	Use 11-digit NDC only If a compound use a single zero
22	M/I Dispense as Written (DAW) /Product Selection code	Refer to Section 7.4 – Maximum Allowable Cost (MAC) Rates of this manual
23	M/I Ingredient Cost Submitted	
25	M/I Prescriber Id	Use the prescriber's NPI number only
26	M/I Unit Of Measure	
28	M/I Date prescription written	
27	Product Identifier not FDA/NSDE Listed	
29	M/I Number of refills authorized	
30	Reversal outside processor reversal window	

NCPDP Reject Code	NCPDP Reject Code Description	Comments
31	No matching paid claim found for reversal	
32	M/I Level of service	"Eff 10/1/2017 claims processed for ESO beneficiaries must be submitted with level of service 03 to attest that the service/drug is for an emergent condition"
33	M/I Prescription origin code	
34	M/I Submission Clarification Code	
35	M/I Primary Care Provider ID	
39	M/I Diagnosis code	
4Ø	Pharmacy Not Contracted with Plan On Date Of Service	Use NPI number only
41	Submit Bill to Other Processor or Primary Payer	Indicates the individual has other insurance coverage. See the additional message field for details
5Ø	Non-Matched Pharmacy Number	Use NPI number only Check beneficiary status
51	Non-Matched Group ID	Use MIMEDICAID only
52	Non-matched Cardholder ID	Use Michigan 10-digit Medicaid ID number (two zeros in front of the eight-digit Beneficiary ID)
53	Non-Matched Person Code	
54	Non-Matched Product/Service ID Number	Use 11-digit NDC only If a compound, use a single zero
55	Non-Matched Product Package size	
56	Non-Matched Prescriber ID	Use prescriber's NPI number
58	Non-Matched Primary Prescriber	
6Ø	Product/Service Not Covered for Patient Age	
61	Product/Service Not Covered for Patient Gender	
62	Patient/Card Holder ID Name Mismatch	

NCPDP Reject Code	NCPDP Reject Code Description	Comments
63	Institutionalized Patient Product/Service ID Not Covered	
64	Claim Submitted Does Not Match Prior Authorization	
65	Patient Is Not Covered	
66	Patient Age Exceeds Maximum Age	
67	Filled Before Coverage Effective	Use Michigan 10-digit Medicaid ID number (two zeros in front of the eight-digit Beneficiary ID)
68	Filled After Coverage Expired	Use Michigan 10-digit Medicaid ID number (two zeros in front of the eight-digit Beneficiary ID)
69	Filled After Coverage Terminated	
70	Product/Service Not Covered – Plan Benefit Exclusion	Use 11-digit NDC; Drug not covered
71	Prescriber Is Not Covered	
72	Primary Prescriber Is Not Covered	
73	Refills Are Not Covered	
74	Other Carrier Payment Meets or Exceeds Payable	
75	Prior Authorization Required	Use 11-digit NDC – Drug requires PA
76	Plan Limitations Exceeded	Check days' supply and metric decimal quantity
77	Discontinued Product/Service ID Number	Use 11-digit NDC – NDC is obsolete
78	Cost Exceeds Maximum	
79	Refill Too Soon	75 percent or more days' supply of previous claim has not been utilized
80	Drug-Diagnosis Mismatch	
81	Claim Too Old	Check the date of service
82	Claim Is Post-Dated	Check the date of service
83	Duplicate Paid/Captured Claim	
84	Claim Has Not Been Paid/Captured
